Dear Ms Ojeke,

This letter is in regards to the March 20, 2014 compliance check of your Category A, Registered Child Development Home. Iowa Code Chapter 237A and 441 Iowa Administrative Code, Chapter 110, describes specific requirements that must be met by a Registered Child Development Home. The following areas were out of compliance at the time of my visit:

☐110.5(1)a Numbers for police, fire, ambulance, poison information posted by phone.

☐110.5(1)a Numbers for each child's parent, physician, and a responsible person are accessible by the phone.

☐110.5(1)j Emergency and disaster plans for fire and tornado are written and posted by primary and secondary exits.

☐110.5(1)j The plans shall clearly map building evacuation routes in case of fire, a safe place indoors in case of tornado, and flood shelter areas.

Refer to packet page 14. There is an example of a map/floor plan. You can go to your county assessor's website and print off a floor plan of your property to assist you in creating a map.

☐110.5(1)k Fire and tornado drills are practiced monthly and documentation kept.

Refer to page 8.

☐110.5(1)m Has not less than one 2A 10BC rated fire extinguisher in a visible and readily accessible place on each child-occupied floor.

Make sure the extinguisher is kept on the main level where childcare is done.

☐110.5(1)s The provider has completed training in CPR for infants, toddlers, and children. Documentation of current certification is on file.

Locate your current registration and keep it in your provider file. If you cannot locate proof of certification contact Child Care Resource and Referral at 1-800-722-7619 for assistance in locating another class.

110.5(2) **A provider file is maintained and contains:**

☐110.5(2)a A physician's signed statement of health and immunization status on the provider and all members of the household who may be present when children are in the home. Statements must be obtained at the time of initial registration and updated every two years.

☐110.5(2)b Two hours of approved child abuse and neglect mandatory reporter training (and every 5 years thereafter.)

☐110.5(2)b Certification by an approved trainer/organization in infant and child first-aid that includes mouth-to-mouth resuscitation. Certification will be maintained throughout period of registration. If they are unable to locate first aid training that includes mouth-to-mouth resuscitation, they must complete both a first aid course and CPR.

☐110.5(2)b During the first year of registration – 12 hours of approved training. At least six hours shall be in a group setting. Two of the twelve hours must be health and safety training. A specific training shall not be used to meet requirements more than one time every five years.

☐110.5(2)b During the second year of registration and each succeeding year, twelve hours of approved training. At least six hours shall be in a group setting. If the provider has documentation of completing the ChildNet, PITC, or Beyond Business Basics series, these hours may be used to fulfill two year's training requirements, not including first aid and mandatory reporter training. A specific training shall not be used to meet requirements more than one time every five years.

Please locate all training certifications completed in the past two years. If you need additional training hours there are online courses listed in the packet that can meet some of the requirements. You should also contact Child Care Resource and Referral to obtain additional trainings at 1-800-722-7619.
