Cost Proposals Comparison

5.4.3 Scoring of Bidder Cost Proposals
The bid with the lowest cost will receive the full point score available (200) for the cost proposal. In order to calculate every other bidder's score, the lowest bidder's cost proposal will be divided into the corresponding value of the other bidder(s) and then multiplied by the maximum points. The formula for each is expressed as follows:
Bidder's Cost Score = (Lowest Cost / Bidder Cost) x Maximum Points
