Dear Child Care Provider,

This letter is in regards to the November 5, 2015 compliance check of your Level B, Registered Child Development Home. Iowa Code Chapter 237A and 441 Iowa Administrative Code, Chapter 110, describes specific requirements that must be met by a Registered Child Development Home. The following areas were out of compliance at the time of my visit:

☒ 441 IAC 110.5(1)“h” A safe outdoor play area shall be maintained in good condition throughout the year. The play area shall be fenced off when located on a busy thoroughfare or near a hazard which may be injurious to a child, and shall have both sunshine and shade areas. The play area shall be kept free from litter, rubbish, and flammable materials and shall be free from contamination by drainage or ponding of sewage, household waste, or storm water.

**Findings: Remove trash burn barrel and concrete/wood from back yard. Seed bare spots and put up temporary rope fence to keep kids out. Work toward installing fence around all sides of the back yard.**

☒ 441 IAC 110.5(1)“j” Emergency plans in case of man-made or natural disaster shall be written and posted by the primary and secondary exits. The plans shall clearly map building evacuation routes and tornado and flood shelter areas.

**Findings: Post emergency and disaster plans at all entrances.**

**Findings: Conduct and maintain documentation of monthly fire and tornado drills.**

Each smoke detector shall be installed according to manufacturer’s recommendations. The provider shall test each smoke detector monthly and keep a record of testing for inspection purposes

**Findings: Install smoke alarms in each child-occupied room on the main floor. (x3)**

441 IAC 110.5(1)“u” The provider shall have written policies regarding the care of mildly ill children and exclusion of children due to illness and shall inform parents of these policies.
