Services By the Five Service Areas

Five Field Service Areas deliver the following basic services.
At the start of SFY16, 1300 employees were located in 42 full time county offices.

Protective Services: 182 Social Worker 3 (SW3) staff assure child and dependent adult assessments are performed when abuse is alleged.

- Each assessment worker has 12 to 14 new assessments each month. The assessments must be completed within 20 business days.
- National standards call for no more than 10 to 12 new assessments per month.

A day in the life of a protective worker consists of:

- Reviewing newly received child abuse intakes and, if needed, calling the reporter.
- Observing the child, sometimes within 1 hour or within 24 hours.
- Interviewing the child, parents, and others who may have knowledge of the case.
- Consulting supervisor regarding a safety plan for the family.
- Reviewing police and medical reports on other cases.
- Doing narratives and entering the data into computer system.
- Consulting with county attorney and attending court.
- Reviewing and providing information for appeals and attending appeal hearings.
- Finalizing a child abuse report and submitting to supervisor for approval.

Child Welfare (CW) Case Management for Children and Families: 336 Social Worker 2 (SW2) staff provide case management services.

- A CW Social Work Case Manager has 29-34 children and families for whom they are responsible. That is about double the Child Welfare League of America recommended caseload.

A day in the life of a CW case manager consists of:

- Identifying child and parent needs.
- Developing case plans with families and service providers.
- Reviewing progress towards goals.
- Meeting with or talking with providers.
- Visiting a child and the family.
- Consulting with County Attorney on status of case.
- Writing court reports.
- Consulting with supervisor.
- Attending Juvenile Court hearings.
- Documenting the day's activities in the various case narratives.
- Reviewing and providing information for appeals and attending appeal hearings.

Eligibility services for Medicaid, FA, and FIP recipients. 450 IM staff perform eligibility activities for Medicaid, FA and FIP services.

- An IM worker is responsible for an average of 919 cases or families or roughly 1,819 individuals.
- In a usual day, an IM worker will complete and process nine new applications or review of existing cases to determine eligibility for FA, Medicaid, and FIP.

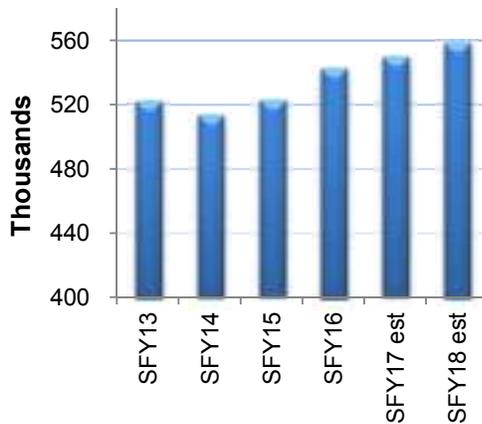

A day in the life of an IM worker may consist of:

- Review all of the required eligibility information for completeness.
- Perform look-ups in at least 7 different data bases to verify citizenship, income and other information.
- Conduct client interviews as required.
- Make referrals to other agencies for services as appropriate.
- Update information in the IABC.
- Reviewing and providing information for appeals and attending appeal hearings.

Other Service Area Staff include: 78 SW Supervisors who provide clinical consultation and approve all child abuse findings and case plans. 36 IM Supervisors who provide eligibility and case consultation to IM staff. 36 support staff, on average, in each Service Area to support the Social Work and IM staff. There are approximately 7 staff per service area provide administrative support and oversight of the statewide Service Area staff and service delivery.

Field Services include the Bureau of Refugee Services. The primary function of this 19-person unit is to help non-English-speaking refugees find employment. Services include an intensive employment-readiness class for new arrivals. The caseload averages about 40-50 cases per worker. Main areas of employment continue to be jobs at meatpacking, housekeeping, and manufacturing. Success is measured regarding amount of pay, rate of retention for at least 90 days, degree of health insurance coverage, and ability to leave public welfare assistance programs (FIP). Funding is a blend of federal funds, competitive grants, and PROMISE JOBS funds. At least 30,000 refugees have settled in Iowa since the resettlement program began in 1975.

Average Monthly Cases

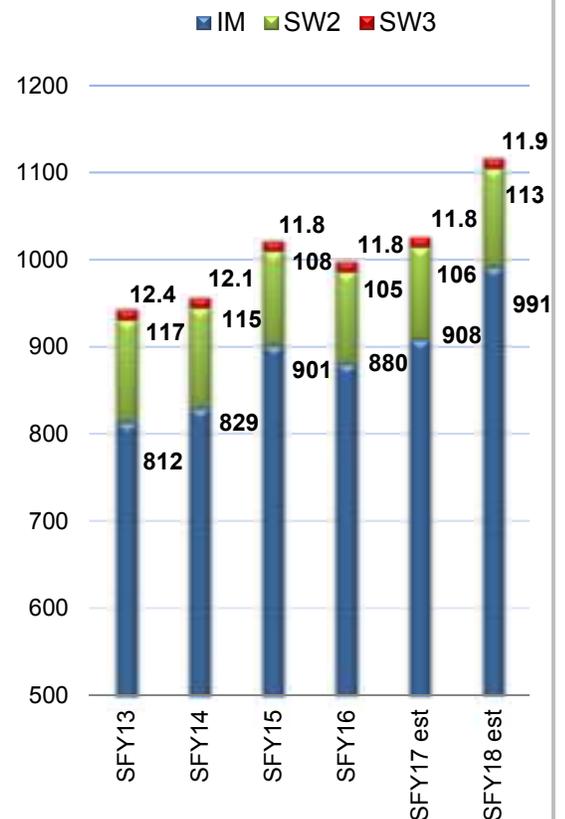

Projections of workloads for all Field Staff:

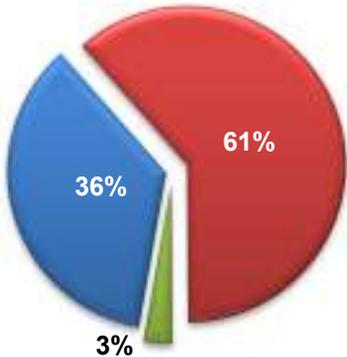

- The services delivered by line staff are measured using the number of cases supported by a single worker or “cases per worker.” Cases typically include families with slightly over two individuals. A caseload measure is used because many of the functions that are performed for a family or household are only performed one time and do not need to be repeated for each individual receiving services.

Based on the projected number of persons to be served by a program, the cases per worker are calculated.

Cases Per Worker
