DEPARTMENT OF HUMAN SERVICES  
CHARLES M. PALMER, DIRECTOR

July 6, 2011

To all interested parties:

The Iowa Department of Human Services (Agency) is providing this notice of intent to release a request for proposal (RFP) MED-12-003 on or around August 1, 2011, for the purpose of procuring a tool to assist with the administration of the Medicaid Electronic Health Records (EHR) Incentive Payment Program.

The current software solution was built utilizing the Iowa Medicaid Provider Application (IMPA), OnBase workflow and document management system, and Iowa Medicaid Management Information System (MMIS) for payment management. Due to limited state staff resources, and anticipating the acquisition of a new MMIS system, the IME has determined the appropriate approach to upgrading the system is to seek a multi-state systems solution to support the administration of the EHR incentive program.

It is the Agency's intent to expand the program for year two and beyond to capture attestation and decision support for "meaningful use" of electronic health records.

Thank you for your interest in this procurement.

Sincerely,

JoAnn Cowger  
Issuing Officer
