Background Objectives

The establishment and requirements of the Iowa Medicaid Enterprise (IME) Clinical Advisory Committee (CAC) are contained in House File 841. The purpose of the CAC is to increase the efficiency, quality and effectiveness of the Medicaid healthcare system. The CAC provides a process for physician and/or provider intervention to promote quality care, member safety, cost effectiveness and positive physician/provider relations through discussion about Medicaid benefits and healthcare services.

The CAC is charged with recommending clinically appropriate healthcare utilization management and coverage decisions for the medial assistance program and IowaCares population to the Department of Human Services (DHS). An annual report summarizing the recommendations made by the CAC and those adopted by rule is prepared and submitted to the DHS.

The CAC performs:

- Technology and therapeutics review (advanced therapy and new technology)
- Administrative support (review and recommendations regarding policy issues)
- Criteria review and recommendations
- Member and provider education/information communication (brochures, letters, website)

The CAC meetings are subject to the open committee rules in Chapter 21 of the Iowa Code. The meetings are publicly announced in the Des Moines Register and on the IME website at a minimum of 10 days prior to the scheduled time. All meeting agendas, minutes, summary of the CAC responsibilities, CAC questions and answers are posted on the website.

The CAC was formed in 2006. All appointments are for three years and each member may be reappointed for one additional three-year term.

Committee Member Bios

Linda K. Gehrke, RN, ARNP (Term expiration 2014)

Ms. Gehrke completed her RN training at Evangelical Hospital of Nursing in Marshalltown, Iowa. Ms. Gehrke then attended the University of North Dakota School of Medicine - Family Nurse Practitioner Program graduating in 1991 with her family nurse practitioner certification. Presently, Ms. Gehrke is a primary care practitioner at the Ellsworth Family Municipal Hospital in Ellsworth, Iowa. Ms. Gehrke has been appointed to the CAC for a four-year term.

Kirk Peterson, MD (term expiration 2014)

Dr. Peterson completed his undergraduate degree at Iowa State University graduating with a Bachelor of Science degree in 1988. Dr. Peterson attended medical school at the University of Iowa College of Medicine in Iowa City. After medical school, Dr. Peterson completed a family practice training program in 1977 at the Iowa Lutheran Hospital in Des Moines. Dr. Peterson is very active in many community and professional groups while practicing family medicine with the Huxley Family Physicians in Huxley, Iowa. Dr. Peterson has been appointed to the CAC for a four-year term.

Ron McHose, DO (term expiration 2013)

Dr. McHose completed his undergraduate degree at Drake University graduating with a Bachelor of Science degree in 1977. Dr. McHose completed his medical training through Des Moines University in 1981. Dr. McHose completed residency in internal medicine at the University of Iowa Hospitals and Clinics and Iowa Lutheran Hospital. Dr. McHose is very active in many community, professional, and educational programs while practicing family medicine at the Dallas Center Medical Associates in Dallas Center, Iowa for more than 23 years. Dr. McHose has been appointed to the CAC for a three-year term.

Janet A. Schlechte, MD (term expiration 2012)

Dr. Schlechte attended undergraduate school at the University of Nebraska where she attained a Bachelor of Science degree in zoology. Dr. Schlechte then pursued graduate training at the University of California in Santa Barbara, graduating with an MA in biology. Dr. Schlechte's medical training was completed at the University of Nebraska in Omaha in 1975. Dr. Schlechte completed an internship and residency in internal medicine at the University of Iowa Hospitals and Clinics. Dr. Schlechte's then completed a three-year fellowship in endocrinology also at the University of Iowa Hospitals and Clinics. After Dr. Schlechte's fellowship she held many academic positions at the College of Medicine. Presently, Dr. Schlechte is the medical director of Continuum of Care Management, a clinical program of the University of Iowa Hospitals and Clinics in Iowa City, Iowa. Dr. Schlechte has been appointed to the CAC for a three-year term.

Mark Davis, PA-C (term expiration 2013)

Mark Davis attended the University of Osteopathic Medicine and Health Sciences in Des Moines graduating in 1986 with a Physician Assistant degree and a Bachelor of Science degree. Mr. Davis is board-certified by the National Commission on Certification of Physician Assistants. Mr. Davis has previously served as President of the Iowa Society of Orthopedic Physician Assistants. Presently, Mr. Davis is on staff at the Kossuth Regional Health Center in Algona, Iowa as a family practice physician assistant. Mr. Davis has been appointed to the CAC for a three-year term.

Rex Rundquist, MD (term expiration 2013)

Dr. Rundquist graduated from the University of Iowa College of Medicine in 1978. He earned his undergraduate Bachelor of Science degree from Iowa State University in 1974. Dr. Rundquist completed his residency program at Children's Hospital Medical Center in Cincinnati, Ohio in 1981. Dr. Rundquist is a member of the American Academy of Pediatrics. Presently, Dr. Rundquist is a partner at Prairie Pediatrics and Adolescent Clinic in Sioux City, Iowa. Dr. Rundquist has been appointed to the CAC for a three-year term.

Joe Kimball, DO (term expiration 2015)

Dr. Kimball attended Des Moines University graduating in 2000 with a professional doctoral degree. Dr. Kimball completed his residency program at Broadlawns Medical Center in 2003. Presently, Dr. Kimball is the medical director of Winterset Care Centers North and South in Winterset, Iowa. Dr. Kimball has been appointed to the CAC for a four-year term.

Dawn Schissel, MD (term expiration 2013)

Dr. Schissel graduated from the University of Minnesota in 1988 and completed her residency at Broadlawns Medical Center in 1991. Dr. Schissel actively participates in several professional affiliations and memberships. Dr. Schissel has been in private practice since 2006. Dr. Schissel has been appointed to the CAC for a two-year term.

Lisa Soldat, MD (term expiration 2013)

Dr. Soldat completed her undergraduate degree at the University of Minnesota with a Master of Science in Genetics in 1983. Dr. Soldat completed her medical training in 1995 at the University of Minnesota. Dr. Soldat actively participates in several professional memberships, activities as well as conducts clinical teachings. Dr. Soldat currently practices at Broadlawns Medical Center in Des Moines, Iowa as a Faculty Physician since 2009. Dr. Soldat has been appointed to the CAC for a two-year term.

Vision

The IME Medical Services is responsible for the administration of the CAC. The IME Medical Director, Jason Kessler, MD, chairs the CAC. The CAC evaluates the clinical aspects of DHS coverage policy and medical management strategies to maximize both quality healthcare and cost effectiveness. The CAC provides recommendations in the early stages of policy development and change, through interactions with the policy unit, which strengthens the buy-in of the Medicaid network providers.

Quarterly Project Reviewed

During review of new technology and/or criteria, information (i.e., randomized controlled clinical trials, clinical practice guidelines, disease prevention and health promotion guidelines) is provided by the Medical Services staff to the committee members. Evidence-based literature is gathered to assist in ensuring the evaluation process is as consistent and understandable as possible. The gathered information is prepared in a report and presented to the committee by Medical Services professional staff or the Medical Director. Making the reasoning behind the committee's recommendations more explicit, it allows DHS's decision to be more transparent to the Medicaid providers and members. The committee's recommendations are provided to DHS in writing to ensure the integrity of the procedures and judgments.

Review of Medical Services Criteria

Another function of the CAC is to provide the Medicaid agency with a timely scheduled review of the criteria utilized for medical review. While reviewing criteria the CAC takes into consideration the standards of practice, the effect of treatment on quality of life, functional status and other relevant aspects of the health of our Medicaid members.

Activity	Recommendations	Responsible Party
Augmentative Communication Systems	Approved	Medical Services
Automated Medication Dispenser	Approved	Medical Services
Bariatric Surgery	Approved	Medical Services
