

**JONES COUNTY**  
**ANNUAL REPORT**  
**FY 2013**

**GOAL 1: Jones County will increase the availability of free or low cost transportation during the evenings and on weekends. Transportation will be available both within Jones County and to surrounding counties.**

Currently Jets of Jones County provides transportation for many of people with disabilities and the elderly. They do an excellent job. But they only are able to provide this service during the weekdays and only during the daytime hours. They are able to provide transportation within the County at a reasonable rate. But many people need to be able to access the community in the evening hours and over the weekends. People also need to access a variety of the services only offered in larger urban communities. Jets has been able to keep their rates low inside Jones County but because of the price of gas and the cost of providing the service it is very expensive to travel outside of Jones County. Because of this Jones County citizens would benefit from an increase in the availability of low-cost transportation.

**1) The first objective toward meeting this need will be to bring together individuals that are knowledgeable about the problem and familiar with the transportation systems in Jones County. A board will be established to guide the progress.**

Progress on Goal: We continue to make slow progress on the goal of increasing transportation to Jones County residents. RSVP continues to slowly expand. The person who was running this office moved to another position which left the office vacant for several months until they were able to hire again. This change in personnel slowed our progress even further but a new person has been hired and we are again moving forward. We continue to be active in planning meetings through ECICOG. The effects of sequestration have adversely effected any new growth. Because of this we continue to rely a great deal on volunteers to provide transportation.

**2) The second objective will be to conduct a survey to solicit input from Jones County citizens.**

Progress on Goal: This goal was completed last year. There were no plans to complete another survey this year. We do anticipate that as the Region begins to function there will be another survey conducted to try and gage Jones Counties continuing needs for transportation.

**3) The third objective will be to develop several proposals that will set up a transportation system that meets the stated needs of people in Jones County. These will be discussed in open forums around the County to provide citizens an opportunity to comment on the proposals and make suggestions to improve the plans.**

Transportation is one of the preliminary services that the Region plans to concentrate on. The Counties are currently meeting with other interested people in the Region to set up priorities and explore ways that these services can be implemented.

**4) The fourth objective will be secure funding for the project. Different sources will have to be explored including grants, donations and volunteers. The exact nature of the funding will be determined by the plan that is developed.**

At this point we plan on addressing future transportation needs through plans developed and paid for by the Region. It is hoped that with expenses spread across the Region a wider variety of options will be available.

**5) The final objective will be to implement the plan.**

We are actively pursuing the development through Regional planning.

**GOAL 2) Jones County will have a full time mental health office.**

Jones County is still in need of additional mental health services, including someone who is licensed to prescribe and monitor people's medication. The main barrier to establishing a full time office has been the lack of space. Abbe Center currently rents space at the ASAC office in Anamosa. This office is not available on a full time basis and there is no storage area available to store client's records. There is the possibility that space in a county owned building will be available over the next few years. To ensure that this possibility becomes a reality we need to keep it front and center in our priorities.

**1) The first objective will be to find space for the office. The CPC will work with the Board of Supervisors to find this space.**

Progress on Goal: A full time office space has been established. There is a large room for group meetings and three offices that currently being occupied. There is also a main reception area/waiting area.

**2) The second objective will be to work with Abbe to establish a full time staff.**

Progress on Goals: Abbe continues to have a part-time office in Jones County. At this time there is a Nurse Practitioner that is able to monitor and proscribe medication. Unfortunately the person who provided most of the individual therapy passed away suddenly at the end of this fiscal year. At this time his cliental are being seen by several temporary therapists. It is anticipated that a new therapist will be hired shortly. The Abbe office has also started to provide open hours on Thursday mornings to accommodate walk-ins. This has been working.

Horizon's has also been increasing the number of people that they are serving. They now have three therapists that work varying hours in their Anamosa office. They also have opened a part-time office in Monticello. This has not only provided more availability but also greater choice for the people of Jones County.

**GOAL 3) Jones County Community Services will increase the number and type of stakeholder meeting conducted across the County.**

Jones County Community Services has worked hard to meet the needs of consumers. Input is sought on a regular basis from "traditional" sources for "traditional people". But it is time to begin to look outside the box and more actively seek out information on what services are needed to meet the needs of "non-traditional" people in "non-traditional" ways. As funding becomes tighter and needs increase it will be the only way to continue the tradition of service that we have developed in Jones County.

**1) The first objective is to start people thinking. Articles in the paper and conversations with business leaders will be used to start this process. Then you need to listen. In short you need to reach out to and increase the number of active stockholders in the system and encourage their input. This can only be done by engaging citizens in the process.**

Progress on Goal: The Jones County Community Services office staff continues to be actively involved in the community. We currently are lead agency for the Jones County Coalition which meets over monthly except over the summer. We continue to have guest speakers who keep us up to date on the services offered in Jones County. Over the last year most of our efforts have been directed toward keeping the public informed of our progress on forming the Region. We continue to seek out input through a number of different venues.

**2) The second objective will be to increase the number of community meetings held to discuss ideas.**

Progress on Goals: Over the last year these meeting have centered on development of the Region.

**3) The third object is for the CPC to seek out opportunities to educate the citizens of Jones County on the services that are currently available and seek information on the services that would benefit those of Jones County. This would be through informative speech at different organizations such as the Lions Club, Rotary, and church meetings.**

Progress on Goals: The CPC has been more active in participating in Community forums. These have included open houses, hosting trainings and presenting to leadership groups. The CPC has actively sought out community participation in a group that is forming to take a lead role in providing input into the development of the Region. This group has been calling themselves the Regional System of Care.

#### **Advisory Board Meeting Minutes**

#### **Advisory Board Meeting Minutes**

September 10, 2012

##### **Attendance:**

Darla Algoe, Ned Rohwedder, Norman Rutan, Shelley Stickfort, Jeanette Shoop, Connie McKean

Deb Schultz, CPC/ Director

Lucia Herman, Jones County Case Management Supervisor

##### **Discussion:**

We went over the previous meetings minutes from June 4th. Minutes were approved.

Deb Schultz gave some background on discussing forming regions. She noted Linn, Jones and Benton County were looking at being a region at the present.

A letter of intent has been signed. Linn County has services that match pretty well with ours and we share many services so it seems to be a good match.

- It was explained that Medicaid services that we matched funds with is no longer paid for or under the direction of the counties. This includes waiver and ICF/MR. the funding will now be done by the state.
- As of July 1, 2013 legal settlement will become "legal residency".
- The time line is by April 2013 – letter saying Regions' intent.
- July 1, 2013 – it will be decided. The 28E agreement has to be established by the regions.

Meeting was adjourned at 5:10pm

#### **Advisory Board Meeting Minutes**

January 14, 2013

##### **Attendance:**

Ned Rohwedder, Norman Rutan, Jeanette Shoop, Connie McKean, Garrett Hanken,

Deb Schultz, CPC/ Director

Lucia Herman, Jones County Case Management Supervisor

##### **Discussion:**

We went over the previous meetings minutes from September. Minutes were approved.

We scheduled the next Advisory board meeting for May 6, 2013.

Deb discussed the progress on the mental health redesign and forming a region. Deb distributed an outline of a tentative structure of how the region might look and the roles of each involved. Deb discussed the possible funding arrangement options for regions as well.

Discussion of the FYE 2013 budget and FY 2014 proposed budget. Overall the budget is very hard to predict this year. We do not know how the change from legal settlement to residency will affect our costs. We do not know if or how much the state will put into transition funds for counties that need these funds and Linn, Delaware and Dubuque have applied for these funds. We have no idea what the cost of new mandated services will be. We do not know what funds will have to be invested in the region in the fiscal year 2014. We do not know if the state will hold up their end or will determine if they need to start waiting lists, thus forcing people to turn to county funding while they wait for Medicaid funded services. Despite all of this, Jones County does not plan to cut any services this year and probably not next year either. We do have enough months to maintain our current services however none will be added.

Lucia discussed case management and the upcoming survey that will be conducted for accreditation. It is scheduled for January 28<sup>th</sup> and 29<sup>th</sup>. The case managers are well prepared. We discussed the substantial increase in paperwork and systems we are using to complete work including CSN.

Meeting was adjourned at 5:30 pm

Minutes completed by:

Case management Supervisor

## **Advisory Board Meeting Minutes**

May 6, 2013

### **Attendance:**

Darla Algoe, Norman Rutan, Shelley Stickfort, Lois Manternach, Stephanie Bildstein, Bruce Williams, Deb Schultz, CPC/ Director

Lucia Herman, Jones County Case Management Supervisor

### **Discussion:**

We went over the previous meetings minutes from January 14<sup>th</sup>. Minutes were approved. (Bruce moved, Darla seconded)

Deb Schultz discussed county regionalization. More counties had been added to the region since our last advisory board meeting. Our planned region will now include Jones, Johnson, Linn, Benton, Delaware, Buchanan, Bremer and Dubuque.

One county one vote is still the plan. Deb noted that the letter of intent was denied so they are working at revamping it. We need one hospital in our region with a psych unit that intends to contract with our region. This was not included in the letter so it will be added. St. Luke's hospital has agreed to do this. Deb plans to meet again in May for the letter to be approved.

Deb explained the final draft of the 28E agreement is complete and registered with the state. They kept it very vague to avoid having to constantly change it. If any changes would need to occur than they would have to re-register. Eventually there will be a regional advisory board for consumers and another board for the providers. Wayne Manternach serves on our board now.

Deb discussed Iowa Care and Obama care.

Deb noted that currently we pay around \$43,000 per year on outpatient mental health services for people at the Abbe Center. \$1500 for community support programs. \$8500 in medications. (Exceptions were made when everything else was exhausted otherwise our county does not pay for medications.) \$80,000 in committal costs per year paid for by the county if a person does not have any other insurance. The region is supposed to be formed by July 1, 2014. By then it will be clear as to what services will be provided, who will pay the bills and the roles each person/county will have.

-Deb went over our proposed budget by the end of 2013 the fund balance should be around \$300,000. Deb noted that she will be pleased with this amount with going into

the region. She feels we will be fine financially. Deb estimates by the end of 2014 the fund balance should be about the same.

Lucia went over the accreditation survey and integrated health homes. The targeted case managers scored VERY high and continue to do an excellent job of serving our clients. We were accredited for another three years which is the highest amount that can be approved based on performance scores.

Meeting adjourned.

Minutes completed by: Lucia Herman LBSW, Case management Supervisor

### **Individual Meetings with Stakeholders**

The CPC meets weekly with the Jones County Board of Supervisors to keep them informed of Jones County Community Services various activities and community activities. The CPC continues to work closely with families who have children with a mental health diagnosis to try and maximize the services that are available. She serves on the advisory board for the wrap around funds that are being managed by Horizons. All committal hearings are attended to ensure the coordination of follow-up services. The Jones County Community Services staff continue to play a key role in a number of organizations in the community. These committees include DCAT, HACAP, RSVP, Jones County Coalition, ECICOG, Early Childhood Iowa and the Circle of Care. Membership in these organizations provides Jones Community Services with the opportunity to learn about what is happening in the community, and the projects that are being worked on. It allows us to work together to accomplish more.

### **Quality Assurance Implementation, Findings and Impact on Plan.**

#### **Jones County Community Services Performance Improvement Plan FY 2013**

Jones County Community Services is committed to providing mental health services to the people of Jones County. Our goal is to provide comprehensive services to qualified individuals in a manner that promotes their independence while at the same time being fiscally responsible. Our success at achieving this goal is measured through consumer and provider surveys, input from the Mental Health Advisory Board, community involvement and staff input. Information learned from these sources as well as others provides a basis for identifying areas of need and a systemic method for improving our level of performance.

**Annual Survey:** An annual survey is conducted. The survey is sent to consumers, consumers' families, and providers working with Jones County Community Services. Results are shared with staff, the Advisory Board, and the Jones County Board of Supervisors. Results and feedback on the survey are solicited and contribute to the development of the goals for the upcoming year for this agency. Areas of need are identified and a plan of action developed to bring about improvement.

**Jones County Mental Health Advisory Board:** The Mental Health Advisory Board meets a minimum of 3 times per year. This Board serves to provide feedback to Jones County Community Services on the performance of the agency. It is comprised of consumers, family members, Board of Supervisors, and concerned citizens. Their suggestions are used to develop yearly goals for the agency. The Jones County Mental Health Advisory Board also provides feedback on the performance of this agency

**Community Involvement:** This has continued to be a large part of Jones County Community Service's plan for improving services for people with disabilities. It provides staff with the opportunity to be on the cutting edge of identifying services that are needed. It also makes them easier to access and promotes integration and public awareness of services available for people with disabilities. The staff of Jones County

Community Services has continued to serve on community boards and volunteer for community projects. This year has included participation in Regionalizing the Early Childhood Iowa Board with the Cedar County Board, establishing an independent Jones County DCAT Board and serving on the Board for the Jones County Wrap Around Services which is now being administered by Horizon's. This involvement also enhances the development of the yearly goals and the improvement plan. Community Services continues to be involved in short and long term efforts to be better prepared for emergency situations in the future. The CPC is a member of the Jones County Long Term Recovery team.

All of these activities provide an opportunity for staff to interact with consumers and citizens of Jones County. This gives them the opportunity to hear and see firsthand what the people of Jones County need for services and where the Jones County Plan needs to be amended to provide the best possible services to those in need within the financial capability of the County.

### **Jones County Community Services Performance Improvement Plan FY 2014**

Jones County Community Services performance improvement plan assists in measuring the effectiveness of our services, and identifies areas in need of improvement. All levels of the Jones County Community Services program are involved in this plan.

Jones County is in the process of forming a Region with 8 other counties. The Counties forming this Region are Benton, Buchanan, Bremer, Delaware, Dubuque, Iowa, Johnson, Linn and Jones. Meetings of the Regional Board are being held once a month with additional work group meetings. Jones County's goals for FY 14 is to help establish a Region that is responsive to the citizens of the entire Region and to develop new programs that will more effectively meet their needs.

#### **APPEALS**

We have had no appeals during the last fiscal year.

#### **WAITING LIST**

Jones County had no waiting list for the last fiscal year. See waiting list report below.
