1924 of the Act

- 3. In addition to the amounts under item 2., the following monthly amounts are deducted from the remaining income of an institutionalized individual with a community spouse:
 - a. The monthly income allowance for the community spouse, calculated using the formula in §1924(d)(2), is the amount by which the maintenance needs standard exceeds the community spouse's income. The maintenance needs standard cannot exceed the maximum prescribed in §1924 (d)(3)(C). The maintenance needs standard consists of a poverty level component plus an excess shelter allowance.

The poverty level component is calculated using the applicable percentage (set out §1924(d)(3)(B) of the Act) of the official poverty level.

The poverty level component is calculated using a percentage greater than the applicable percentage, equal to %, of the official poverty level (still subject to maximum maintenance needs standard).

The maintenance needs standard for all community spouses is set at the maximum permitted by §1924(d)(3)(C).

Except that, when applicable, the State will set the community spouse's monthly income allowance at the amount by which exceptional maintenance needs, established at a fair hearing, exceed the community spouse's income, or at the amount of any courtordered support.

The definition of "family" for purposes of the 250% family income eligibility test includes:

- ♦ For disabled individuals under 18 and unmarried: the individual, parents living with the individual, unmarried siblings under 18 living with the individual, and children of the individual who live with the individual.
- For disabled individuals 18 or older or married: the individual, the individual's spouse living with the individual, and any unmarried children under 18 who are living with the individual.

In comparing family income to 250%, SSI income disregards and exemptions are applied. In determining whether the 250% family income eligibility test is met, disregard the amount of income equal to the social security cost-of-living adjustment for the year until the federal poverty level increase goes into effect for the year.

Premiums will be charged for recipients with gross income in excess of 150% of the federal poverty level and will be adjusted annually based on changes in the average state employee health insurance premium. The premium is determined according to a sliding scale based on income, with the maximum premium, based on the average state employee's health insurance premium, charged only when not more than 5% of gross income.

Monthly premium amounts established August 1, 2020; begin at \$35 with gross income greater than 150% of the federal poverty level and increase to a maximum of \$829 with gross income greater than 1550% of the federal poverty level. No other cost-sharing charges apply to this group, except for otherwise applicable Iowa Medicaid co-payments, subject to the aggregate limits described in 42 C.F.R. §447.56(f).

In determining the monthly premium amount, the gross income figure used in calculation of the monthly premium will not include the cost-of-living adjustment for the year until the federal poverty level for the year goes into effect.
