II. ANNUAL SERVICE AND BUDGET PLAN FOR FY14/15

Northwest Iowa Care Connections exists to support improved access to health care and to promote full citizenship for people with mental illness, intellectual disabilities, or developmental disabilities. This plan assumes that the state will not mandate expansion of initial core services or creation of additional core services without additional funding. This plan covers the period from July 1, 2014 through June 30, 2015.

A. Northwest Iowa Care Connections Regional Local Access points

Northwest Iowa Care Connections designates the following access points and their function(s) in the enrollment process. An access point is a part of the service system or community that is trained to complete the MH/DD funding applications for persons with a disability and forward them to the local Northwest Iowa Care Connections Office.

B. Crisis Planning

Crisis prevention, response and resolution is as much a mindset as it is a continuum of strategies and services. Crisis services are available on a 24 hour basis for prevention, supportive counseling and debriefing. Crisis prevention, response, and resolution are also embedded in the treatment and support plans that are prepared by Network Providers, Targeted Case Management, and Service Coordination. When these plans are developed, the goal is to figure out an environment and support structure that works for a person to mitigate the triggers that lead to crisis. Some agencies specifically use a Wellness Recovery Action Plan (WRAP) that complements the coordination plan. Much of the prevention, response, and resolution of crisis is handled through the normal services and supports people receive.

If more specialized crisis response and resolution is required to meet a person's need, Northwest Iowa Care Connections has several options. At Compass Pointe, Hope Haven, and Seasons Center for Behavioral Health, these providers have crisis services available 24 hours a day, seven days a week. The primary goals are crisis assessment, resolution, and screening for inpatient hospitalization. Seasons Center is our region's primary contracted provider for emergency 24 hour phone line access at this time. They can be reached by calling 1-800-242-5101. Since they

are an access point for the region, their physical locations are listed in Section A of this document throughout our six county region. With their psychiatric practitioners available for inpatient admissions as well as clinicians available for outpatient treatment options, Seasons Center for Behavioral Health provides an inclusive array of service to meet the needs of individuals in crisis.

Currently in FY 14 and through FY 15, there are three teams working on specific service needs that address gaps in service as well as complement current options. The goal of two of these teams is to address the needs for persons with multi-occurring crisis services in the community as well as in county jails. At this time, we are investigating models for tiered crisis intervention services which may include aid in place, local respite options with our partners in residential care facilities as well as exploration of a rural crisis stabilization unit featuring chairs for short-term assessment and intervention. These services are being designed to address the crisis needs of currently identified clients, those receiving law enforcement intervention, as well as those who access medical services in our local hospital emergency rooms. Our goal is to provide a menu of safe and appropriate crisis stabilization options in lieu of the inpatient psychiatric setting when applicable.

Service	Crisis Function	Provider	Contact Information
Mental Health First Aid	Mental Health training for regional law enforcement	Iowa Law Enforcement Academy	ILEA-Des Moines IA
*Mental Health First Aid	Mental Health training for regional communities	NWIACC, NAMI of NWIA, DBSA of NW IA, other local providers/interest groups	NWIACC 712-262-9438

*Crisis Team	Care Coordination 24/7 telephonic service for crisis resolution and screening for inpatient treatment	Exploring options with local providers including Seasons Center for Behavioral Health to address rural tiered crisis services delivery system	NWIACC 712-262-9438
*23-Hour or less Crisis Stabilization	23 hour crisis assessment, stabilization and referral	Exploring options with the designated team.	NWIACC 712-262-9438

In our tiers of service, we will explore the use of natural supports and peer support services in the care of individuals in need. We have accessed the Iowa Law Enforcement Academy for regional

training on Mental Health First Aid. We see that as a need in the community and will address this with our local National Alliance on Mental Illness (NAMI) and Depression Bipolar Support Alliance (DBSA) to provide this training locally.

We also will be offering staff training and provider education about positive behavioral supports and motivational interviewing to better meet the needs of individuals in crisis. We denoted above with an asterisk (*) those services being designed to engage people at an earlier stage of crisis to avoid more intensive services.

C. Scope of Services & Budget

The annual budget and planning process is utilized to identify and implement core disability service improvements. The Northwest Iowa Care Connections Region collaborates with stakeholders to assess need and to advocate adequate funding for services and supports in the initial core and additional core service domains. Northwest Iowa Care Connections is the funder of last resort. Additional funding sources are used to empower individuals to reach their fullest potential. The Northwest Iowa Care Connections Region is responsible for services that are authorized in accordance with the Regional Management Plan and within the constraints of budgeted dollars. Because a lack of historical expenses makes it difficult to accurately address regional expenses for new services during this first and transitional year, the NWIACC Governance Board will allow, with their prior authorization, flexible use of funds within the confines of the regional budget to address special projects and services brought forward for consideration. Services funded by Northwest Iowa Care Connections are subject to change or termination with the development of the annual budget each fiscal year. The Regional Management Plan Policy & Procedure Manual addresses mandated services access standards.

The Northwest Iowa Care Connections Chief Executive Officer and Administrative Team proposed the FY15 budget. In February 2014, the Northwest Iowa Care Connections reviewed the Regional Budget with approval in March 2014. Northwest Iowa Care Connections is responsible for managing and monitoring the adopted budget.

Because there is debt on behalf of Osceola County, their equalization dollars were withheld by the State. The balance due at approximately \$60,000 has resulted in a plan for each county to provide a one-time payment from each county which will eradicate the debt in the first quarter of FY 15. As we move forward, we are projecting the amount of services are based on access standards discussed in this plan. In addition, we did not incorporate any changes with the budget to the unknowns of the Iowa Plan. Any excess dollars from this action will be used for reinvestment in community based funding as these funds become available.

Annually, Northwest Iowa Care Connections reviews actual expenditures and services provided, stakeholder input and participation, quality assurance implementation findings, waitlist information, progress toward goals and objectives, and, if any, appeal type and resolution to determine if gaps in services or barriers to services exist. This review is submitted annually to the Department of Human Services.

Anticipated revenues for the Northwest Iowa Care Connections result from each member county's MHDS Fund 10 that includes their annual tax levy, and any funding from the state as allowed to a rate of \$47.28 per capita (Equalization dollars), state payment program dollars as applicable, and FY 14 County Fund 10 balances brought forward. These funds are available to

client services and administration provided for purposes of the Region. The tables below reflect 2014 Equalization payments received by Northwest Iowa Care Connections member counties. FY 15 amounts are subject to population gain and loss. This table also anticipates State Payment Program revenues and the next table below provides FY 14 ending fund balances.

D. Financial Forecasting Measures

Throughout the year, Northwest Iowa Care Connections staff and stakeholders will identify unmet needs and areas for service development, which are incorporated into subsequent strategic plans and budgets. We will be computing the Medicaid offset impact on the region's budget. We anticipate that the fee for service dollars subject to the offset will be minimal in comparison to the block grant we currently pay with minimal savings seen overall. In addition, with the payment of Osceola County's debt as well as the limitations placed on Palo Alto County's levy to \$10 per capita for FY15 only, we forecast the funding of core services for the mandated core populations with emphasis on crisis services and customized employment along with limited exposure to the Developmental Disability (DD) population group, will result in a sustainable plan of investing in the services to persons in need and in our infrastructure for better response and access. Interdisciplinary teams have been or will be assembled to address the projects listed below as part of the region's strategic plan priorities in the areas of system infrastructure, community living, employment, and treatment.

Strategic Plan Priority Area	FY15 Strategy	Projected Cost
Employment and Day Services	Partner with Stakeholders to develop Individualized Outcome Based Customized Employment Opportunities in the Region	\$ 265,000

E. Provider Reimbursement Provisions

Northwest Iowa Care Connections will contract with MHDS providers whose base of operation is in the region. Northwest Iowa Care Connections may also honor contracts that other regions have with their local providers or may choose to contract with providers outside of the Region. A contract may not be required with providers that provide one-time or as needed services.

Over the past several years, Northwest Iowa Care Connections plans to use its contracting capacity to implement a series of strategies for moving towards outcome-based payments. Northwest Iowa Care Connections uses a mix of fee-for-service, fee-for-service and capitated case rates for most of its services. It provides block grants only for specific population based activities where billing by individual served is impossible or impracticable. Non-traditional provider contracts are used in instances when services are provided by individuals or families.

Northwest Iowa Care Connections service contracts require that all providers meet all applicable licensure, accreditation or certification standards; however Northwest Care Connections makes serious efforts to stimulate access to more natural supports in its service provider network. Successful attainment of positive outcomes, consumer and family satisfaction, and cost effectiveness measures are the most important factors in continued network participation. Northwest Iowa Care Connections (NWIACC) has identified access points within the provider network to assist individuals or their representatives to apply for services.
