Dear Child Care Provider,

This letter is in regards to the March 7, 2014 compliance check of your Level B, Registered Child Development Home. Iowa Code Chapter 237A and 441 Iowa Administrative Code, Chapter 110, describes specific requirements that must be met by a Registered Child Development Home. The following areas were out of compliance at the time of my visit:

110.5(1)n Has a minimum of one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway. **Smoke detector in the large basement room was down.**

110.5(1)v The provider has written policies about responding to health-related emergencies.

110.5(2) A provider file is maintained and contains:

110.5(2)a A physician's signed statement of health and immunization status on the provider and all members of the household who may be present when children are in the home. Statements must be obtained at the time of initial registration and updated every two years.

110.5(2)b Certificates or training verification documentation for:

110.5(2)b Two hours of approved child abuse and neglect mandatory reporter training (and every 5 years thereafter.) **Expired 11/2013.**

110.5(2)b Certification by an approved trainer/organization in infant and child first-aid that includes mouth-to-mouth resuscitation. Certification will be maintained throughout period of registration. If they are unable to locate first aid training that includes mouth-to-mouth resuscitation, they must complete both a first aid course and CPR. **Has but expires 3/2014.**

110.5(8) Children's Files

110.5(8) An individual file is maintained for each child and updated annually or when there are changes. Each file contains:

110.5(8)d For infants and preschoolers: An admission physical examination, on the first day of attendance, including past health history, status of present health, allergies and restrictive conditions, and recommendations for continued care when necessary. The date of the exam is not more than 12 months before the child's first day of attendance. **4 of 5 children were missing.**

110.5(8)e For school aged children: An annual statement of health condition signed by the parent or legal guardian, annually from date of admission physical. **1 out of 1 child was missing.**

110.5(9) The provider meets the following requirements:

110.5(9)a Gives careful supervision at all times. **Provider had child sleeping upstairs and was not monitoring. The provider must monitor the child. It is recommended she use a baby monitor (with or without a camera).**

110.9(1) SPECIFIC REQUIREMENTS FOR CHILD DEVELOPMENT HOME CATEGORY "B" *The provider was not over numbers at the time of the visit. This is included as a reminder to provider regarding how many children she can care for.*

110.9(1)a Not more than six preschool children present at any one time including infants.

110.9(1)b Of these six children, not more than four children who are 24 months of age or younger are present at any one time.

110.9(1)b Of the four children under 24 months of age, no more than three may be 18 months of age or younger.

110.9(3)c The bottom of the window opening is not more than 44 inches above the floor with permanent steps inside leading up to the window.

Non-compliance with any of the mandated regulatory requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. **Please take**

whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations within the next 45 days.

Based on the items out of compliance listed above, a recheck or follow up visit to your home is not necessary.
