Dear Jelissa,

This letter is in regards to the 9/1/15 compliance check of your Level B, Registered Child Development Home. Iowa Code Chapter 237A and 441 Iowa Administrative Code, Chapter 110, describes specific requirements that must be met by a Registered Child Development Home. The following areas were out of compliance at the time of my visit:

FINDINGS: *Identify FINDINGS in each area of non-compliance.*

441 IAC 110.5(1) Conditions in the home are safe, sanitary, and free of hazards.

441 IAC 110.5(1)“c” A first-aid kit shall be available and easily accessible whenever children are in the child development home, in the outdoor play area, in vehicles used to transport children, and on field trips. The kit shall be sufficient to address first aid related to minor injury or trauma and shall be stored in an area inaccessible to children. The kit shall, at a minimum, include adhesive bandages, antiseptic cleaning materials, disposable tweezers, and disposable plastic gloves.

Jelissa will place disposable tweezers in her home first aid kit.

442 IAC 110.5(1)“d” Medications shall be given only with the parent’s or doctor’s written authorization. Each prescribed medication shall be accompanied by a physician’s or pharmacist’s direction. Both nonprescription and prescription medications shall be in the original container with directions intact and labeled with the child’s name. All medications shall be stored properly and, when refrigeration is required, shall be stored in a separate, covered container so as to prevent contamination of food or other medications. All medications shall be stored so they are inaccessible to children. Any medication administered to a child shall be recorded, and the record shall indicate the name of the medication, the date and time of administration, and the amount given

Jelissa needs to obtain updated parental consent form for B.G.

441 IAC 110.5(1)“e” Electrical wiring shall be maintained, and all accessible electrical outlets shall be tamper-resistant outlets or shall be safely capped. Electrical cords shall be properly used. Improper use includes running cords under rugs, over hooks, through door openings, or other use that has been known to be hazardous

Jelissa needs to place a wall plate on outlet in kitchen.

441 IAC 110.5(1)“h” A safe outdoor play area shall be maintained in good condition throughout the year. The play area shall be fenced off when located on a busy thoroughfare or near a hazard which may be injurious to a child, and shall have both sunshine and shade areas. The play area shall

be kept free from litter, rubbish, and flammable materials and shall be free from contamination by drainage or ponding of sewage, household waste, or storm water.

Jelissa needs to have safety cover on pool when not in use or have fence that completely isolates area so that children cannot access it.

- 441 IAC 110.5(1)“r” When there is a swimming or wading pool on the premises:
- (1) A wading pool shall be drained daily and shall be inaccessible to children when it is not in use.
 - (2) An aboveground or in-ground swimming pool that is not fenced shall be covered whenever the pool is not in use. The cover shall meet or exceed the ASTM International (formerly known as the American Society for Testing and Materials) specification intended to reduce the risk of drowning by inhibiting access to the water by children under five years of age.
 - (3) An uncovered aboveground swimming pool shall be enclosed with an approved fence that is non-climbable and has a minimum height of four feet.
 - (4) An uncovered in-ground swimming pool shall be enclosed with a fence that is at least four feet high and flush with the ground.
