## Section 438.6(c) Preprint

---

Section 438.6(c) provides States with the flexibility to implement delivery system and provider payment initiatives under MCO, PIHP, or PAHP Medicaid managed care contracts. Section 438.6(c)(1) describes types of payment arrangements that States may use to direct expenditures under the managed care contract – paragraph (c)(1)(i) provides that States may specify in the contract that managed care plans adopt value-based purchasing models for provider reimbursement; paragraph (c)(1)(ii) provides that States have the flexibility to require managed care plan participation in broad-ranging delivery system reform or performance improvement initiatives; and paragraph (c)(1)(iii) provides that States may require certain payment levels for MCOs, PIHPs, and PAHPs to support State practices critical to ensuring timely access to high-quality care.

Under section 438.6(c)(2), contract arrangements that direct the MCO's, PIHP's, or PAHP's expenditures under paragraphs (c)(1)(i) through (iii) must have written approval from CMS prior to implementation and before approval of the corresponding managed care contract(s) and rate certification(s). This preprint implements the prior approval process and must be completed, submitted, and approved by CMS before implementing any of the specific payment arrangements described in section 438.6(c)(1)(i) through (iii).
