#### Social Security Number Information

We can give help only to people who give us their Social Security Number or proof of application from the Social Security office. You don't have to give us the Social Security Number for people in your household who you do not want help for, but you may choose to give us their Social Security Number. However, we will use any Social Security Number given to us the same way we use the Social Security Number of people getting assistance.

If you do not give us a Social Security Number for people in your household, we will deny assistance to those people. There are some exceptions to this. Please ask your worker.

We will not give any Social Security Number to the Citizenship and Immigration Service.

#### Medicaid

#### We Check What You Tell Us

The information you give us may be checked by federal, state and local officials to make sure it is true. Things we might check are any listed person's: Social Security Number, job and pay, bank account amount, alien status, and amounts received from other sources like Social Security or unemployment. If any information you give us is not correct, we may deny your application.

We may check records from other states to see if any person in your household can get benefits in lowa. This may be because a person was disqualified from a program in another state.

We check and use computer systems like the State Income and Eligibility Verification System, the Federal Facilitated Exchange including Internal Revenue Service (IRS), Social Security Administration (SSA), and Department of Homeland Security (DHS). If something you told us is different from what the computer system tells us, we will check to find out what is correct. We might check your information by contacting your employer, your bank, or other people. To do this kind of checking with your employer, bank, or other people, we will ask you first.
