

VBP Unit add text here explaining what this table is about.

ACTIONS:	
All Payer Alignment Actions:	Medicaid VBP and MCO Actions:
Provide Quality Measure reports in an online dashboard model to inform delivery system performance. (tool used in alignment between Medicaid and Wellmark in Iowa)	Refine dashboard reporting to meet provider and MCO needs as the system progresses in VBP strategies Introduce value-centric strategies in Medicaid with MCOs
Develop VIS public reporting strategies	Transition and grow Health Home program into the MCO model
Support the growth of primary care providers participating in value-based payment models in Iowa	Integrate BH, LTC, Dental, CYSHCN populations in Medicaid VBP and quality models
Promote the use of quality tools (VIS) and care coordination tools (CCTs,SWAN) to improve patient outcomes and lower costs	Introduce Social Determinants of Health (SDH) data and patient health confidence data into primary care providers engaged in VBP strategies
Promote the use of SDH data to improve patient outcomes and lower costs	Provide claims data and real-time alerts data to providers in VBP to support better care coordination development
Faciliate partnerships among payers to align VBP programs across Iowa	Review and refine VBP quality measures annually to ensure special pop focus for Medicaid
