### I-1: Financial Integrity and Accountability

**Financial Integrity.** Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Along with focused audits through POS, the IME Program Integrity unit conducts audits on all Medicaid Providers types including HCBS providers. Any suspected fraud is turned over to the Department of Inspection and Appeals Medicaid Fraud and Control Unit (contracted by DHS).

The Program Integrity Unit must open a minimum of 60 cases for provider reviews during each calendar quarter. All cases referred from DHS must be opened in the quarter referred. Reviewed cases must include providers who exceed calculated norms for rates and units as well as a random sample of providers who do not exceed norms. Review cases are also incorporated into the Program Integrity Unit process through referrals and complaints received from other units, members, providers, case managers, and anonymous individuals. All reviews include monitoring a statistically representative sample of paid claims and service documentation to detect such aberrancies as "up-coding" or "code creep". This monitoring may involve desk reviews or provider on-site reviews.

Program Integrity must perform on-site reviews on at least five percent (5%) of the provider cases opened during the quarter. This translates into a minimum of three (3) on-site reviews per quarter. They must also include analysis of provider practice patterns and reviews of medical records in the provider's setting. Program Integrity must initiate appropriate action to recover erroneous or inappropriate provider payments on the basis of its reviews. They must work with the Core MMIS contractor to accomplish required actions on providers, including requests to recover payment through the use of credit and adjustment procedures.

Program Integrity must report findings from all reviews to DHS on a quarterly basis. This must include written reports at least quarterly (or more frequently, if requested) detailing information on provider utilization review summary findings and provider on-site review activity.

The Department of Human Services fiscal agent also conducts audits on providers of Home and Community Based Services. The one hundred highest billing providers (account for over 70% of year's expenditures) are identified and reviewed on a three to five year cycle. This sample is compared to the reviews conducted by the Program Integrity Unit such that duplication is avoided. An electronic program is utilized to randomly pick member files from the list of potential providers as well as the months to be reviewed. From the statistically representative sample, 10% of member files are reviewed to ensure proper billing procedures and supporting service documentation.

The Auditor of the State has the responsibility to conduct periodic independent audit of the CMH waiver under the provisions of the Single Audit Act.

### Quality Improvement: Financial Accountability

*As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.*

**a. Methods for Discovery: Financial Accountability**

*State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver. (For waiver actions submitted before June 1, 2014, this assurance read "State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.")*

**i. Sub-Assurances:**

- a. Sub-assurance:** *The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered.*

(Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)

**Performance Measures**

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.  
 The Program Integrity Unit samples provider claims each quarter for quality. These claims are cross-walked with service documentation to determine the percentage of error associated with coding and documentation. This data is stored in a spreadsheet and reported on a monthly and quarterly basis.

**b. Methods for Remediation/Fixing Individual Problems**

- i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.  
 When the Program Integrity Unit discovers situations where providers are missing documentation to support billing or coded incorrectly, monies are recouped and technical assistance is given to prevent future occurrence. When the lack of supporting documentation and incorrect coding appears to be pervasive, the Program Integrity Unit may review additional claims, suspend the provider payments, require screening of all claims, referral to MFCU, or provider suspension.

The data gathered from this process is stored in the Program Integrity tracking system and reported to the state on a monthly and quarterly basis.

### I-2: Rates, Billing and Claims (1 of 3)

- a. Rate Determination Methods.** In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).

The IME Provider Cost Audit and Rate Setting Unit recommends to the department of human services proposed rates for all fee-schedules when not already identified by Medicare or other contracted rates (counties, AAAs, etc.) honored by Iowa Medicaid.

Environmental modifications and adaptive devices, most respite services, and in-home family therapy services are reimbursed by Fee Schedules. Fee schedules are fees for the various procedures involved that are determined by the department of human services with advice and consultation from the appropriate professional group. The fees are intended to reflect the amount of resources involved in each procedure. Individual adjustments may be made periodically to correct an inequity or to add new procedures or eliminate or modify others. If product cost is involved in addition to service, reimbursement is based either on a fixed fee, wholesale costs, or an actual acquisition cost of the product to the provider, or product costs included as part of the fee schedule.

Providers on fee schedules are reimbursed the lower of:

- (1) The actual charge made by the provider of service.
- (2) The maximum allowance under the fee schedule for the item of service in question.

There are some variations in this methodology which are applicable to certain providers. These apply to Family and Community Supports and some respite providers.

Respite provided by home health agencies use the maximum Medicare rate converted to a 15-minute rate. Family and Community Supports services are based on a retrospectively limited prospective rate configured by the IME's audit and rate setting unit in coordination with the provider. With retrospectively limited prospective rates, providers are reimbursed on the basis of a rate for a unit of service calculated prospectively based on projected or historical costs of operation, subject to the maximums listed in the Iowa Administrative Code and to retrospective adjustment based on actual, current costs of operation so as not to exceed reasonable and proper costs by more than 4.5 percent (Iowa legislature for SFY2013 granted all waiver providers a 2% increase to current rates. Medicaid therefore increased rates to 4.5% from 2.5%).

The prospective rates for new providers who have not submitted six months of cost reports will be based on a projection of the provider's reasonable and proper costs of operation until the provider has submitted an annual cost report that includes a minimum of six months of actual costs. The prospective rates paid to established providers

who have submitted an annual report with a minimum of a six-month history are based on reasonable and proper costs in a base period and are adjusted annually for inflation. The prospective rates paid to both new and established providers are subject to the maximums listed in the Iowa Administrative Code and to retrospective adjustment based on the provider's actual, current costs of operation as shown by financial and statistical reports submitted by the provider, so as not to exceed reasonable and proper costs actually incurred by more than 4.5 percent.

All provider rates are part of Iowa Administrative Rules and are subject to public comment any time there is change. This information is on the department's website as well as distributed to stakeholders when there is a change. At the time of service plan development, the case managers share with the members the rates of the providers, and the member can choose a provider based on the provider's rates.

- b. **Flow of Billings.** Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the State's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

Providers shall submit claims on a monthly basis for waiver services provided to each individual served by the provider. Providers may submit manual or electronic claim forms:

1. Manual claims shall be directed to the Iowa Medicaid Enterprise (IME) following the directions available on the IME website.
2. Electronic claims shall utilize HIPAA compliant software, and shall be processed by the Iowa Medicaid Enterprise.

Providers shall submit a claim form that accurately reflects the following:

1. The provider's NPI provider number for waiver services
2. The appropriate waiver procedure code(s) that correspond to the waiver services authorized in the case manager's service plan.
3. The appropriate waiver service unit(s) and fee that corresponds to the case manager's service plan.
4. The IME issues provider payments weekly on Mondays.

Edits within the MMIS system ensure that payment will not be made for services that are not included in an authorized service plan of care. Any change to ISIS data generates a new program request to MMIS. ISIS data is updated daily into MMIS:

- c. **Certifying Public Expenditures** (*select one*):

- No. State or local government agencies do not certify expenditures for waiver services.**
- Yes. State or local government agencies directly expend funds for part or all of the cost of waiver services and certify their State government expenditures (CPE) in lieu of billing that amount to Medicaid.**

*Select at least one:*

- Certified Public Expenditures (CPE) of State Public Agencies.**

Specify: (a) the State government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (*Indicate source of revenue for CPEs in Item I-4-a.*)

### I-2: Rates, Billing and Claims (3 of 3)

- d. **Billing Validation Process.** Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant's approved service plan; and, (c) the services were provided:

The MMIS system provides for edits to make sure that all claims payments are made only when an individual is eligible for waiver payments and when the services are included in the service plan. An individual is eligible for a Medicaid Waiver payment on the date of service as verified in ISIS. The billing validation method includes the date the service was provided, time of service provision, and name of actual person providing the service.

Several entities monitor the validity of claim payments:

- 1) The Case Manager ensures that the services were provided by reviewing paid claims information made available to them for each of their members through ISIS.
  - 1) The Iowa Department of Human Services Bureau of Purchased Services performs financial audits of providers to ensure that the services were provided.
  - 3) The IME Program Integrity Unit performs a variety of reviews by either random sample or outlier algorithms.
- e. **Billing and Claims Record Maintenance Requirement.** Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

*Select one:*

- The amount paid to State or local government providers is the same as the amount paid to private providers of the same service.
- The amount paid to State or local government providers differs from the amount paid to private providers of the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.
- The amount paid to State or local government providers differs from the amount paid to private providers of the same service. When a State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the State recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.

Describe the recoupment process:

Enrolled Medicaid providers can choose to subcontract to non-enrolled providers for the provision of Environmental Modifications and adaptive devices. The authorization for the service and the Medicaid payment for the authorized service is made to the enrolled Medicaid provider that would then forward payment to the subcontractor in accordance with their contract.

Any subcontractor who is qualified to enroll with Iowa Medicaid is encouraged to do so. No provider is denied Medicaid enrollment for those services which they are qualified to provide.

When the case manager has assessed the need for any waiver service, the member is offered the full choice of available providers. The member has the right to choose from the available providers; the list of providers is available through the case manager and is also available through the IME member website.

In accordance with the Iowa Administrative code, all subcontractors must meet the same criteria guidelines as enrolled providers; and the contracting enrolled provider must confirm that all criteria is met.

Environmental modifications and adaptive devices, are reimbursed by Fee Schedules. Fee schedules are fees for the various procedures involved that are determined by the department of human services with advice and consultation from the appropriate professional group. - This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.

- As specified in Appendix C, the State furnishes waiver services in residential settings other than the personal home of the individual.**

**b. Method for Excluding the Cost of Room and Board Furnished in Residential Settings.** The following describes the methodology that the State uses to exclude Medicaid payment for room and board in residential settings:

The only CMH service that may be provided in a residential setting is Respite. As specified in Iowa Administrative Code, Iowa does not reimburse for room and board costs, except as noted for providers of out of home respite services. The Iowa Administrative Code rules and HCBS Provider Manual states that room and board cannot be included in the cost of providing services.

Most respite payments are based upon fee schedules detailed in the Iowa Administrative Code. That fee schedule has no allowance for room and board charges. Respite provided by a home health agency is limited to the established Medicare rate.

The State describes its coverage of live-in caregiver in Appendix C -3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when the participant lives in the caregiver's home or in a residence that is owned or leased by the provider of Medicaid services.

The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:
