APPLICATION PROCESS

The application process for the Children's Mental Health Waiver requires a coordinated effort between the Department of Human Services and other agencies on behalf of the prospective child. If you are currently working with Department of Human Services' personnel, please contact that person regarding the application process.

Please respond immediately to correspondence from an income maintenance worker, case manager (CM), Managed Care Organization (MCO) community-based case manager (CBCM), or integrated health home (IHH). This will decrease the amount of time needed to complete the application process and assist in communication.

1. Application for Medicaid (Title XIX) and the CMH Waiver are made with an Income Maintenance worker (IM) at the local DHS office. The IM worker will secure a payment slot or put the member's name on a waiting list.

Upon availability of a payment slot, the IM worker:

- Initiates the application process,
 - Obtains financial information from the family to determine the child's Medicaid eligibility, and
 - Refers the child and family to a Medicaid case manager, MCO CBCM, or IHH who works near the child's home county.
2. The family will be contacted to schedule an assessment. The assessment must be completed as one of the eligibility requirements for the CMH Waiver. The family must at the time of assessment also make available to the assessor documentation from within the past 12 months from a psychiatrist, psychologist, or certified mental health professional that the child has a mental health diagnosis of serious emotional disturbance.

The assessor will send the completed assessment and verification of serious emotional disturbance diagnosis to the IME Medical Services. IME Medical Services will review the submitted documentation and make a determination as to whether or not the child meets level of care.

3. After the level of care has been completed and the child has been found eligible for the waiver, the CM, MCO CBCM, or IHH will convene an interdisciplinary team (IDT) meeting. The IDT will determine the services that are needed, the amount of service to be provided and the providers of the services. The end result of the IDT decisions will be the development of an individual comprehensive plan.
4. The CM, MCO CBCM, or IHH will issue a notification to the family and to the selected service providers if the child is approved to receive the CMH Waiver services.
