Application Process

The application process for Habilitation requires a coordinated effort between the Department of Human Services (DHS) and non-department agencies on behalf of the prospective member. If you are currently working with DHS personnel, please contact that person regarding the application process.

Please respond immediately to correspondence from an income maintenance worker or IHH care coordinator or community-based case manager. This will decrease the amount of time needed to complete the application process and assist in communication.

1. Application for Habilitation is made by the IHH care coordinator submitting a request for Habilitation to the IME Medical Services Unit or the managed care organization submitting a completed assessment and social history to the IME Medical Services Unit.

2. An assessment tool, the interRAI-Mental Health, is completed by the Medicaid Core Standardized Assessment Contractor or the Managed Care Organization (MCO).

3. The Iowa Medicaid Enterprise, Medical Services will review the assessment tool to determine if member meets two of the risk factors and two of five criteria showing a need for assistance.

4. An interdisciplinary team meeting is conducted to determine the services that are needed, the amount of service to be provided, and the providers of the services. The interdisciplinary team meeting will be attended by the:
   - Member and family,
   - IHH care coordinator,
   - Community-based case manager,
   - Habilitation service providers, and
   - May also include other professional or support persons that the member chooses.

The result of the interdisciplinary team decisions will be a comprehensive service plan developed, signed, and dated by the member or the member’s guardian, IHH care coordinator, community-based case manager and the service providers responsible for implementation.

5. An approved comprehensive service plan must be in place before implementation of services. An approved comprehensive service plan recorded in the Fee-for-Service Individualized Services Information System (ISIS) authorizes FFS payment for Habilitation services. For MCO enrollees, the MCO must authorize the services.

6. If the member is approved to receive Habilitation services, the IME will issue a Notice of Decision.
