Attachment 2-5

Time Period of Contract Action: Amendment Execution to March 31, 2014

The Contractor will provide managed care physician provider recruitment and education and training for the implementation of the Iowa Health and Wellness Plan.

- Open Enrollment in the IHAWP is mandated to begin October 1, 2013. The provider network needs to be up and running prior to this date. The plan, in part, prescribes a managed care component administered through IME for certain IHAWP members in the form of assigned primary care patient managers (PCPM) and the use of Accountable Care Organization (ACO) payment strategy.

Deliverables

Recruitment Plan: During year one of the IHAWP Network, the Contractor shall plan and implement a recruitment effort targeting any qualified and practicing Primary Care Provider. This includes, but is not limited to the following:

- Contact of all potentially eligible primary care providers defined by allowable specialty currently under MediPASS and adding providers verified for primary care increase.
- Execution of new contracts for PCP's under the Wellness Plan.
- Related website updates and messaging.
- Live presentations in a few larger cities, as necessary.
- Responding to inquiries, both verbal & electronic
- Coordination with provider associations.

In addition, staff will capture new agreements from IHAWP providers and code related files in MMIS. Regular IHAWP network status and progress reports will be included.

Performance Measures

- Build provider network capacity consistent with MediPASS Network adequacy of 1.5 panels per existing eligible member. To support the expected year one population of just under 60,000, network adequacy requires a minimum panel of 90,000 "slots" in the first year.
- After the first 3 months of messaging, any potential providers not enrolled in the wellness plan will be personally contacted and encouraged to join. The results of the effort will be documented through a log tracked by county. Providers that opt not to participate will be polled on the reason to allow follow-up and analysis.
- Presentation attendees will have an Evaluation Form for immediate feedback.
- Provide status reports as requested by the Agency.
