Comments:

Completion of visit and checklist by the Child Care Nurse Consultant is only a tool to help identify potential unsafe items in the child care environment. The visit does not imply that your environment is hazard free. It is important for you to send the warranty card information to the manufacturer when you purchase equipment. You can stay informed and updated with Consumer Product Safety Commission product recalls through the website: [www.cpsc.gov](http://www.cpsc.gov) or phone 1-800-638-2772. You are responsible to monitor the safety of your equipment and the items you purchase.

<sup>2</sup> The CCNC signature indicates initial completion of the checklist and an initial report of findings were given to the child care business. In the Iowa Quality Rating System (QRS) the child care business may be awarded 1 point.

<sup>3</sup> The CCNC signature indicates the child care business has **corrected a minimum of 50%** of the found hazards that are within the control of the business. In the Iowa QRS the child care business may be awarded 1 point.

<sup>4</sup> The CCNC signature indicates the child care business **corrected all** found hazards that are *within the control* of the business AND the business developed a **written plan** to address found hazards that are *not within the control* of the child care business. In the Iowa QRS the child care business may be awarded 1 point.
