B-1: Specification of the Waiver Target Group(s)

- a. **Target Group(s).** Under the waiver of Section 1902(a)(10)(B) of the Act, the State limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. *In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:*

Target Group	Included	Target SubGroup	Minimum Age	Maximum Age	
				Maximum Age Limit	No Maximum Age Limit
Aged or Disabled, or Both - General					
		Aged			
		Disabled (Physical)			
		Disabled (Other)			
Aged or Disabled, or Both - Specific Recognized Subgroups					
		Brain Injury	0		
		HIV/AIDS			
		Medically Fragile			
		Technology Dependent			
Intellectual Disability or Developmental Disability, or Both					
		Autism			
		Developmental Disability			
		Intellectual Disability			
Mental Illness					
		Mental Illness			
		Serious Emotional Disturbance			

- b. **Additional Criteria.** The State further specifies its target group(s) as follows:

“Brain injury” means clinically evident damage to the brain resulting directly or indirectly from trauma, infection, anoxia, vascular lesions or tumor of the brain, not primarily related to degenerative or aging processes, which temporarily or permanently impairs a person’s physical, cognitive, or behavioral functions. The person must have a diagnosis from the following list:

Malignant neoplasms of brain, cerebrum.

Malignant neoplasms of brain, frontal lobe.

Malignant neoplasms of brain, temporal lobe.

Malignant neoplasms of brain, parietal lobe.

Malignant neoplasms of brain, occipital lobe.

Malignant neoplasms of brain, ventricles.

Malignant neoplasms of brain, cerebellum.

Malignant neoplasms of brain, brain stem.

Malignant neoplasms of brain, other part of brain, includes midbrain, peduncle, and medulla oblongata.

Malignant neoplasms of brain, cerebral meninges.

Malignant neoplasms of brain, cranial nerves.

Secondary malignant neoplasm of brain.

Secondary malignant neoplasm of other parts of the nervous system, includes cerebral meninges.

Benign neoplasm of brain and other parts of the nervous system, brain.

Benign neoplasm of brain and other parts of the nervous system, cranial nerves.

Benign neoplasm of brain and other parts of the nervous system, cerebral meninges.

Encephalitis, myelitis and encephalomyelitis.
 Intracranial and intraspinal abscess.
 Anoxic brain damage.
 Subarachnoid hemorrhage.
 Intracerebral hemorrhage.
 Other and unspecified intracranial hemorrhage.
 Occlusion and stenosis of precerebral arteries.
 Occlusion of cerebral arteries.
 Transient cerebral ischemia.
 Acute, but ill-defined, cerebrovascular disease.
 Other and ill-defined cerebrovascular diseases.
 Fracture of vault of skull.
 Fracture of base of skull.
 Other and unqualified skull fractures.
 Multiple fractures involving skull or face with other bones.
 Concussion.
 Cerebral laceration and contusion.
 Subarachnoid, subdural, and extradural hemorrhage following injury.
 Other and unspecified intracranial hemorrhage following injury.
 Intracranial injury of other and unspecified nature.
 Poisoning by drugs, medicinal and biological substances.
 Toxic effects of substances.
 Effects of external causes.
 Drowning and nonfatal submersion.
 Asphyxiation and strangulation.
 Child maltreatment syndrome.
 Adult maltreatment syndrome.

The minimum age for members under this waiver is actually 30 days, however the system will only accept years

- c. **Transition of Individuals Affected by Maximum Age Limitation.** When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (*select one*):

Not applicable. There is no maximum age limit

The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.

Specify:

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (1 of 2)

- a. **Individual Cost Limit.** The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (*select one*). Please note that a State may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

No Cost Limit. The State does not apply an individual cost limit. *Do not complete Item B-2-b or item B-2-c.*

Cost Limit in Excess of Institutional Costs. The State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the State. *Complete Items B-2-b and B-2-c.*

The limit specified by the State is (*select one*)

A level higher than 100% of the institutional average.

Specify the percentage:

Other

Specify:

Institutional Cost Limit. Pursuant to 42 CFR 441.301(a)(3), the State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. *Complete Items B-2-b and B-2-c.*

Cost Limit Lower Than Institutional Costs. The State refuses entrance to the waiver to any otherwise qualified individual when the State reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the State that is less than the cost of a level of care specified for the waiver.

Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.

The cost limit specified by the State is (select one):

The following dollar amount:

Specify dollar amount:

The dollar amount (select one)

Is adjusted each year that the waiver is in effect by applying the following formula:

Specify the formula:

May be adjusted during the period the waiver is in effect. The State will submit a waiver amendment to CMS to adjust the dollar amount.

B-2: Individual Cost Limit (2 of 2)

Answers provided in Appendix B-2-a indicate that you do not need to complete this section.

- b. **Method of Implementation of the Individual Cost Limit.** When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

- c. **Participant Safeguards.** When the State specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the State has established the following safeguards to avoid an adverse impact on the participant (*check each that applies*):

The participant is referred to another waiver that can accommodate the individual's needs.
Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

Other safeguard(s)

Specify:

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

- a. **Unduplicated Number of Participants.** The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The State will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

Table: B-3-a

Waiver Year	Unduplicated Number of Participants
Year 1	1688
Year 2	1688
Year 3	1688
Year 4	1688
Year 5	1688

- b. **Limitation on the Number of Participants Served at Any Point in Time.** Consistent with the unduplicated number of participants specified in Item B-3-a, the State may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the State limits the number of participants in this way: (*select one*):

The State does not limit the number of participants that it serves at any point in time during a waiver year.

The State limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

Table: B-3-b

Waiver Year	Maximum Number of Participants Served At Any Point During the Year
Year 1	1551
Year 2	1551
Year 3	1551
Year 4	1551
Year 5	1551

c. **Reserved Waiver Capacity.** The State may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (*select one*):

Not applicable. The state does not reserve capacity.

The State reserves capacity for the following purpose(s).

Purpose(s) the State reserves capacity for:

Purposes
Nursing Facility (NF), SKilled Nursing Facility and Intermediate Care Facility for Persons with Intellectual Disabilites)
Community-Based Neurobehavioral Rehabilitation Services (CNRS)

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (*provide a title or short description to use for lookup*):

Nursing Facility (NF), SKilled Nursing Facility and Intermediate Care Facility for Persons with Intellectual Disabilites)

Purpose (*describe*):

The state will reserve 30 slots each waiver year for use by members living in a Nursing Facility (NF) or in Intermediate Care Facility for Persons with Intellectual Disabilites (ICF/ID).

Slots are available for use by any eligible person for the BI waiver residing in a Nursing Facility , Skilled Nursing Facility or Intermediate Care Facility for Persons with Intellectual Disabilites (ICF/ID) and has been residing there at least 6 months, and is choosing the BI waiver program over institutional services. Slots will be allocated based on the date of application for the reserved slot.

Once on the BI waiver program, the member is transitioned to funding under the Brain Injury waiver through the county of legal settlement or through state case status.

Describe how the amount of reserved capacity was determined:

The thirty slots are based on the anticipated movement of members moving from out of state nursing facilities (NF) or skilled nursing facilities (SNF) and Intermediate Care Facilities for Persons with Intellectual Disabilities ICF/ID) and movement within the state to community based settings funded through the Brain Injury waiver.

The reserved capacity slots are intended to ensure that members living in Nursing Facilities (NF) or Intermediate Care Facilities for Persons with Intellectual Disabilities (ICF/ID) for six or more months have a slot available to them to make the transition into the community and continued funding through the Brain Injury waiver.

The MFP grant provides more opportunities for members living within an ICF/ID, or NF to move to community based services funded through the BI waiver. It is anticipated that during the five years of the MFP grant that 50 members will move from NFs and ICF/IDs to the BI waiver program. The MFP grant funds the first 365 days of services provided in the community. After the first year, the member will apply for and receive funding through the BI waiver.

The capacity that the State reserves in each waiver year is specified in the following table:

Waiver Year	Capacity Reserved
Year 1	30
Year 2	30
Year 3	30
Year 4 (renewal only)	30
Year 5 (renewal only)	30

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (*provide a title or short description to use for lookup*):

Community-Based Neurobehavioral Rehabilitation Services (CNRS)

Purpose (*describe*):

The state will set aside 15 slots each year for Iowa Medicaid members who are receiving residential community based neurobehavioral rehabilitation services to enable them to transition to home with the support of the services available through the BI Waiver once their treatment with the CNRS provider is completed.

The CNRS program is designed to provide intensive neurobehavioral rehabilitation services to individuals diagnosed with a brain injury co-occurring with a serious mental illness and are at risk of institutionalization, incarceration or homelessness due to effects of their brain injury and mental illness.

Describe how the amount of reserved capacity was determined:

The fifteen slots are based on the anticipated movement of members who would access Community Based Neurobehavioral services as an alternative to jail, homelessness or out of state institutionalization and are not otherwise eligible for a reserved capacity slot under the ICF/ID, SNF or NF criteria. These reserved capacity slots are intended to ensure that members who have been diverted from jail or institutionalization and are receiving residential community-based neurobehavioral rehabilitation services for six or more months have a funding slot available to them to make the transition to home with the continued funding of support services through the Brain Injury waiver.

Members accessing these slots do not have access to the Money Follows the Person Grant program as they are not residing in a medical institution.

The capacity that the State reserves in each waiver year is specified in the following table:

Waiver Year	Capacity Reserved
Year 1	15

Waiver Year	Capacity Reserved
Year 2	15
Year 3	15
Year 4 (renewal only)	15
Year 5 (renewal only)	15

- d. **Scheduled Phase-In or Phase-Out.** Within a waiver year, the State may make the number of participants who are served subject to a phase-in or phase-out schedule (*select one*):

The waiver is not subject to a phase-in or a phase-out schedule.

The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.

- e. **Allocation of Waiver Capacity.**

Select one:

Waiver capacity is allocated/managed on a statewide basis.

Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

- f. **Selection of Entrants to the Waiver.** Specify the policies that apply to the selection of individuals for entrance to the waiver:

A statewide waiting list managed on a first-come, first-served basis ensures that all individuals have comparable access to the waiver, regardless of the individual's county of residence.

B-5: Post-Eligibility Treatment of Income (1 of 4)

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group. A State that uses spousal impoverishment rules under §1924 of the Act to determine the eligibility of individuals with a community spouse may elect to use spousal post-eligibility rules under §1924 of the Act to protect a personal needs allowance for a participant with a community spouse.

- a. Use of Spousal Impoverishment Rules.** Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217 (*select one*):

Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.

In the case of a participant with a community spouse, the State elects to (*select one*):

Use spousal post-eligibility rules under §1924 of the Act.

(Complete Item B-5-b (SSI State) and Item B-5-d)

Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State)

(Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The State uses regular post-eligibility rules for individuals with a community spouse.

(Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

i. Allowance for the personal needs of the waiver participant

Specify:

- ii. If the allowance for the personal needs of a waiver participant with a community spouse is different from the amount used for the individual's maintenance allowance under 42 CFR §435.726 or 42 CFR §435.735, explain why this amount is reasonable to meet the individual's maintenance needs in the community.

Select one:

Allowance is the same

Allowance is different.

Explanation of difference:

- iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR §435.726:

- a. Health insurance premiums, deductibles and co-insurance charges
- b. Necessary medical or remedial care expenses recognized under State law but not covered under the State's Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.

Select one:

Not Applicable (see instructions)*Note: If the State protects the maximum amount for the waiver participant, not applicable must be selected.*

The State does not establish reasonable limits.

The State uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level (s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

- a. **Reasonable Indication of Need for Services.** In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services:

- i. **Minimum number of services.**

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is: 1

- ii. **Frequency of services.** The State requires (select one):

The provision of waiver services at least monthly

Monthly monitoring of the individual when services are furnished on a less than monthly basis

If the State also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:

One unit of service in addition to case management under the HCBS BI waiver is required to be used each calendar quarter. As part of the BI waiver service, targeted case management is required for each member. Case management rules require face-to-face contact with the member each quarter as well as monthly collateral contact for the purpose of monitoring the member's services.

- b. Responsibility for Performing Evaluations and Reevaluations.** Level of care evaluations and reevaluations are performed (*select one*):

Directly by the Medicaid agency

By the operating agency specified in Appendix A

By an entity under contract with the Medicaid agency.

Specify the entity:

The Iowa Medicaid Enterprise (IME) Medical Services unit contractor is responsible for determining the level of care based on a completed comprehensive functional assessment and supporting documentation from a medical professional.

Other

Specify:

- c. Qualifications of Individuals Performing Initial Evaluation:** Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

IME Medical Services requires that the individuals who determine the level of care are licensed registered nurses.

- d. Level of Care Criteria.** Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the State's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

Individual must meet the level-of-care requirements for care in an Nursing Facility (NF) , Skilled Nursing Facility or Intermediate care facility for persons with Intellectual Disabilities (ICF/ID)

IME Medical Services uses the Targeted Case Management Comprehensive Functional Assessment or Brain Injury Waiver Assessment Tool in conjunction with the Long Term Care ICF/ID criteria, which reviews the entire body system to specify a level of care. The Long Term Care ICF/ID criteria and NF criteria look at the following criteria: Ambulation/mobility, musculoskeletal disability/paralysis, activities of daily living, elimination, eating skills, sensorimotor, intellectual/vocational, social, maladaptive behaviors, health care, and psycho-social.

- e. Level of Care Instrument(s).** Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (*select one*):

The same instrument is used in determining the level of care for the waiver and for institutional care under the State Plan.

A different instrument is used to determine the level of care for the waiver than for institutional care under the State plan.

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

The Assessment and Services Evaluation (ACE) is the same criteria used to evaluate both waiver and institutional level of care. The Comprehensive Functional Assessment used for their BI waiver is a different tool because this also identifies the different care needs in the home and community setting that are not the same or applicable for an institutional setting. The results of the assessment are used by the Case Manager to develop the comprehensive person centered service plan. Because the same criteria are used for both institutional care and waiver services, the outcome is reliable, and fully comparable

- f. Process for Level of Care Evaluation/Reevaluation:** Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

The reevaluation is the same process and the same guidelines are used

The income maintenance worker secures a payment slot and coordinates the Medicaid eligibility determination with the Medicaid Case Manager and the Iowa Medicaid Enterprise Medical Services Unit. An initial assessment is initiated and completed by the Case Manager and sent to the Medical Services Unit for review and level of care determination. The Medical Services Unit shall be responsible for determining the level of care based

on the assessment tool and supporting documentation submitted by the case manager. The reevaluation is the same process and the same guidelines are used. The member's Case Manager or facility discharge planner if applicable assists with the submission of supporting documentation.

IME Medical Services requires that the individuals who determine the level of care are licensed registered nurses.

- g. **Reevaluation Schedule.** Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (*select one*):

Every three months

Every six months

Every twelve months

Other schedule

Specify the other schedule:

- h. **Qualifications of Individuals Who Perform Reevaluations.** Specify the qualifications of individuals who perform reevaluations (*select one*):

The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.

The qualifications are different.

Specify the qualifications:

- i. **Procedures to Ensure Timely Reevaluations.** Per 42 CFR §441.303(c)(4), specify the procedures that the State employs to ensure timely reevaluations of level of care (*specify*):

The reevaluations are tracked in the Iowa Department of Human Services Individualized Services Information System (ISIS). A reminder tickler is sent out to the person responsible for the evaluation 60 days before the reevaluation is due. A Continued Stay Review (CSR) report is available through ISIS to track if reevaluations are overdue. This is monitored by Medical Services and the Bureau of Long Term Care with the Iowa Medicaid Enterprise.

- j. **Maintenance of Evaluation/Reevaluation Records.** Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

All level of care documents are faxed or uploaded to the Iowa Medicaid Providers Access portal and saved electronically in the IME electronic records storage, OnBase.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

- a. **Methods for Discovery: Level of Care Assurance/Sub-assurances**

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

- i. **Sub-Assurances:**

- a. *Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

LC-1a: Number and percent of members that have a valid level of care assessment completed prior to receipt of waiver services. Numerator: # of valid level of care assessments made prior to receipt of waiver services Denominator: # of level of care assessments.

Data Source (Select one):

Other

If 'Other' is selected, specify:

The data informing this performance measure is pulled from ISIS. Reports are pulled and data is inductively analyzed at a 100% level. Conclusions are made based on the data that is pulled.

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.
Data is collected quarterly through reports generated on ISIS data. Data is inductively analyzed at a 100% level. This data is monitored for trends in procedural standards from an individual and systems perspective.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

The state's Individualized Services Information System (ISIS) is programmed to provide warnings when service plans are attempted to be entered prior to an initial or annual level of care determination. The programming was also intended to prevent service plans from being developed prior to the level of care determinations but it has been identified that there is a cushion of time (60 days) in which the case manager may enter in service plan revisions/extensions beyond the level of care due date. Action is being taken to investigate and remediate this issue.

The state's Medical Services Unit performs internal quality reviews of initial and annual level of care determinations to ensure that the proper criteria are applied. In instances when it is discovered that this has not occurred the unit recommends that the case manager take steps to initiate a new level of care determination through communication with the member.

General methods for problem correction at a systemic level include informational letters, provider trainings, collaboration with stakeholders and changes in policy.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

- i. informed of any feasible alternatives under the waiver; and*
- ii. given the choice of either institutional or home and community-based services.*

- a. Procedures.** Specify the State's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

During the enrollment process, one of the required milestones in the Individual Services Information System (ISIS) states the case manager/service worker is to explain to the member and to the member's legal representative the choice between HCBS waiver and institutional services. The freedom of choice is documented by both the income maintenance worker and the case manager and is placed in the consumer's file. Documentation of the choice of the BI waiver is located on the Assessment Tool used to determine level of care. There are waiver informational brochures available to share with members and their parents/guardians. Brochures are available at each of the DHS county offices where the income maintenance workers are located. Information is also available on the IME website. The brochures include information on eligibility, service descriptions, and the application process. Once a member begins the enrollment process and has a services worker/case manager assigned, a more detailed review of services and providers that are available in the area occurs as part of the planning process for developing a member's plan of care.

- b. Maintenance of Forms.** Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

At the local Department of Human Services Income Maintenance Worker office and case managers/service workers also keep copies of the member choices.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the State uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

The Iowa Department of Human Services adopts the policy as set forth in Title VI of the Civil Rights Act prohibiting national origin discrimination as it affects people with limited English proficiency. The Department shall provide for communication with people with limited English proficiency, including current and prospective members, family members and members to ensure them an equal opportunity to benefit from services. The Department has developed policies and procedures to ensure meaningful access for people with limited English proficiency. This includes procedures to:

- *Identify the points of contact where language assistance is needed
- *Identify translation and interpretation resources, including their location and their availability
- *Arrange to have these resources available in a timely manner
- *Determine the written materials and vital documents to be translated, based on the populations with limited English proficiency and ensure their transition
- *Determining effective means for notifying people with limited English proficiency of available translation services available at no cost.

Training Department staff on limited English proficiency requirements and ensure their ability to carry them out, and monitoring the application of these policies on at least an annual basis to ensure ongoing meaningful access to service. All applications and informational handouts are printed in Spanish. In addition, the contract with IME Member Services requires a bilingual staff person be available to answer all telephone calls, emails and written inquiries. They also work with interpreters if another spoken language is needed. All local Department of Human Services Offices have access to a translator if a bilingual staff person is not available. The Department includes this policy as part of their Policy on Nondiscrimination that can be found in the Iowa Department of Human Services Title 1 General Departmental Procedures in the Department Employee Manual.

On the local level each county office utilizes the resources that are available to them. For example, in larger metropolitan areas, local offices have staff that is fluent in Spanish, Bosnian, and SE Asian languages. Some offices utilize translators from the department's refugee services. Other areas of the state have high Russian populations and access the translators in the area. All county offices have access to the Language Line service that they may place a telephone call and request a translator when one is not available at the local office.

Current Medicaid members may call the IME Member Services unit with any questions relating to Medicaid, including waiver services. Member Services has translation capabilities similar to the DHS offices and uses the Language Line to address any language where they do not have an interpreter on staff.

The Iowa DHS has personnel assigned to translate any written information produced by the Department. DHS currently has the capabilities to translate materials into 86 different languages.
