Managed Care Report

## May 2016 Performance Data

Published on July 26, 2016

## OVERVIEW

---

Performance monitoring and data analysis are critical components in assessing how well the managed care organizations (MCO) are maintaining and improving the quality of care delivered to members.

The monthly data reports are a snapshot of information on major contract compliance areas and member enrollment. The department examines the data from a compliance perspective and conducts further analysis if any issues are identified.

Over time, the data experience will grow and produce trend information that will allow us to examine if the MCOs are accomplishing health outcomes and promoting quality in the health care delivery system, in addition to meeting contract requirements. Quarterly reports will include additional data analysis and review of trends.

The MCOs participating in the IA Health Link program include:

- Amerigroup Iowa, Inc. (Amerigroup)
- AmeriHealth Caritas Iowa, Inc. (AmeriHealth)
- UnitedHealthcare Plan of the River Valley, Inc. (UnitedHealthcare)

### Contractual References for Performance Measures

- 13.4.6 Claims Payment Timeliness**

The Contractor shall pay providers for covered medically necessary services rendered to the Contractor's members in accordance with Law. The Contractor shall pay or deny ninety percent (90%) of all clean claims within fourteen (14) calendar days of receipt, ninety-nine point five percent (99.5%) of all clean claims within twenty-one (21) calendar days of receipt and one hundred percent (100%) of all claims within ninety (90) calendar days of receipt. A "clean claim" is one in which all information required for processing is present. If a claim is denied because more information was required to process the claim, the claim denial notice shall specifically describe all information and supporting documentation needed to evaluate the claim for processing.

- 11.2.7.2.1 Prior Authorization Standard Timeframes**

In accordance with 42 C.F.R. § 438.210, the Contractor shall notify members of standard authorization decisions as expeditiously as required by the member's health condition, not to exceed seven (7) calendar days after the request for services. An extension of up to fourteen (14) calendar days is permitted if the member or provider requests an extension or if the Contractor justifies to the Agency a need for more information and explains how the extension is in the member's best interest.

- 11.2.7.2.2 Prior Authorization Expedited Timeframes**

In situations where a provider indicates or the Contractor determines that following the standard timeframe could seriously jeopardize the member's life or health or ability to attain, maintain or regain maximum function, the Contractor shall make an expedited authorization decision and provide notice as expeditiously as the member's health condition requires and no later than three (3) business days after receipt of the request for service. The Contractor may extend the three (3) business days by up to fourteen (14) calendar days if the member or the provider requests an extension or the Contractor justifies a need (to the State agency, upon request ) for additional information and how the extension is in the best interest of the member.

- 3.2.6.3 Pharmacy Prior Authorization (PA):** Consistent with all applicable laws, the Contractor is required to use a PA program to ensure the appropriate use of medications. For any drugs that require prior authorization:

- 3.2.6.3.1** The Contractor shall provide response by telephone or other telecommunication device within twenty-four (24) hours of a request for prior authorization.

- 8.3.3 Helpline Performance Metrics**

The Contractor shall maintain a service level of eighty percent (80%) for incoming calls that is calculated with this equation:  $SL = ((T - (A + B)) / T) * 100$  where T= all calls that enter queue, A=calls that are answered after 30 seconds, B=calls that are abandoned after 30 seconds.

- 14.4.5 Provider Helpline Performance Report**

The Contractor shall demonstrate the following: maintain a service level of eighty percent (80%) for incoming calls that is calculated with this equation:  $SL = ((T - (A + B)) / T) * 100$  where T= all calls that enter queue, A=calls that are answered after 30 seconds, B=calls that are abandoned after 30 seconds.

## NETWORK ADEQUACY AND HISTORICAL UTILIZATION

---

Network Adequacy helps us to ensure that the MCOs are offering a enough providers, and the right types, to serve the IA Health Link population. The IME and the Centers for Medicare and Medicaid Services (CMS) developed a network adequacy tool that is based on Medicaid members' historical utilization of services. **Historical utilization**, as seen in the table below, is a measure of the percentage of assigned members who current providers are part of the managed care network for a particular service or provider type based on claims history.
