PLAN TO ATTEND THIS IMPORTANT EVENT

Advancing MAT in Iowa: *Exploring the Role of MAT as a Tool for Recovery*

With an array of effective FDA-approved medications now available for addressing the emerging prescription and opioid use epidemic, it is vital that specialty substance use disorder (SUD) treatment and healthcare providers learn more about Medication Assisted Treatment (MAT). Equally important, policy makers, drug court/family court personnel, and social service professionals will learn how supporting the use of medication, combined with evidence-based behavioral therapies, can save lives and reduce healthcare costs.
