**B-1: Specification of the Waiver Target Group(s)**

a. **Target Group(s).** Under the waiver of Section 1902(a)(10)(B) of the Act, the State limits waiver services to one or more groups or subgroups of individuals. ### B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level (s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

- a. Reasonable Indication of Need for Services.** In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services:

**i. Minimum number of services.**

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is: 1

**ii. Frequency of services.** The State requires (select one):

- The provision of waiver services at least monthly  
 Monthly monitoring of the individual when services are furnished on a less than monthly basis

If the State also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:

HCBS waiver services must be accessed at least once every calendar quarter by the member.

- b. Responsibility for Performing Evaluations and Reevaluations.** Level of care evaluations and reevaluations are performed (select one):

- Directly by the Medicaid agency  
 By the operating agency specified in Appendix A  
 By an entity under contract with the Medicaid agency.

Specify the entity:

The Iowa Medicaid Enterprise Medical Services Unit shall be responsible for determining the level of care based on the completed assessment tool and supporting documentation from the medical professional while supplemental information may also come from the service worker, applicant, or other appropriate professional.

- Other  
Specify:

- c. Qualifications of Individuals Performing Initial Evaluation:** Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

Medical Professionals - licensed physician, physician assistant or advanced registered nurse practitioner - perform the initial evaluation.

IME Medical Services Unit requires the individuals employed to determine the level of care within that unit are licensed registered nurses.

- d. Level of Care Criteria.** Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the State's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

The Physical Disability Waiver level of care process reviews information to determine if an applicant has the presence of a physical or mental impairment which restricts the ability to perform the essential activities of daily living; bathing, dressing, and personal hygiene and impedes the capacity to live independently. The member's physical or

mental impairment is such that self-execution of the required nursing care is improbable or impossible. Individuals with a mental impairment that are eligible for the Intellectual Disability Waiver (IA 0242) are not eligible for the Physical Disability Waiver.

The following are the areas reviewed:

Cognitive, Mood and Behavior Patterns  
 Physical Functioning-Mobility  
 Skin Condition  
 Pulmonary Status  
 Continence  
 Dressing and Personal Hygiene (ADLs)  
 Nutrition  
 Medications  
 Communication  
 Psycho-social

Categories are evaluated by with an all-or-nothing approach as a scoring system does not seem accurate for this medical-based process.

- e. **Level of Care Instrument(s).** Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (*select one*):
- The same instrument is used in determining the level of care for the waiver and for institutional care under the State Plan.
  - A different instrument is used to determine the level of care for the waiver than for institutional care under the State plan.

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

The Assessment and Services Evaluation (ACE) is the same criteria used to evaluate both waiver and institutional level of care. The Certification for Level of Care used for waiver services is a different tool because this also identifies the different care needs in the home setting that are not the same for an institutional setting. The results of the assessment then are used to develop the plan of care. Because the same criteria are used for both institutional care and waiver services, the outcome is reliable, valid and fully comparable.

- f. **Process for Level of Care Evaluation/Reevaluation:** Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

An initial assessment is initiated by the income maintenance worker and the member/family or the service worker and sent to the member/guardian. The member/guardian is responsible for meeting with the medical professional (including Physician, Physician Assistant or Advanced Registered Nurse Practitioner) to complete the level of care assessment. The medical professional completes the level of care assessment and sends (via fax) to the Iowa Medicaid Enterprise Medical Services Unit. The IME Medical Services unit shall be responsible for determining the level of care based on the completed assessment tool and supporting documentation from the medical professional. The reevaluation is the same process and the same guidelines are used.

- g. **Reevaluation Schedule.** Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (*select one*):
- Every three months
  - Every six months
  - Every twelve months
  - Other schedule  
Specify the other schedule:

- h. **Qualifications of Individuals Who Perform Reevaluations.** Specify the qualifications of individuals who perform reevaluations (*select one*):
- The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
  - The qualifications are different.

*Specify the qualifications:*

- i. **Procedures to Ensure Timely Reevaluations.** Per 42 CFR §441.303(c)(4), specify the procedures that the State employs to ensure timely reevaluations of level of care (*specify*):

The reevaluations are tracked in the Iowa Department of Human Services Individualized Services Information System (ISIS). A reminder is sent out to the person responsible for the evaluation 60 days before the reevaluation is due. A continued stay review report is available through ISIS to track reevaluations are overdue is monitored by Medical Services and the Bureau of Long Term Care with the Iowa Medicaid Enterprise.

- j. **Maintenance of Evaluation/Reevaluation Records.** Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

All level of care documents are faxed into the Iowa Medicaid Enterprise and placed in OnBase. OnBase is the system that stores documents electronically and establishes workflow.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

Data is collected quarterly through reports generated on ISIS data. Data is inductively analyzed at a 100% level. This data is monitored for trends in procedural standards from an individual and systems perspective.

**b. Methods for Remediation/Fixing Individual Problems**

i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

The state's Individualized Services Information System (ISIS) is programmed to provide warnings when service plans are attempted to be entered prior to an initial or annual level of care determination. The programming was also intended to prevent service plans from being developed prior to the level of care determinations but it has been identified that there is a cushion of time (60 days) in which the case manager may enter in service plan revisions/extensions beyond the level of care due date. Action is being taken to investigate and remediate this issue.

The state's Medical Services unit performs internal quality reviews of initial and annual level of care determinations to ensure that the proper criteria are applied. In instances when it is discovered that this has not occurred the unit recommends that the service worker take steps to initiate a new level of care determination through communication with the member and physician.

General methods for problem correction at a systemic level include informational letters, provider trainings, collaboration with stakeholders and changes in policy.

### B-7: Freedom of Choice

**Freedom of Choice.** As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

- i. informed of any feasible alternatives under the waiver; and
- ii. given the choice of either institutional or home and community-based services.

- a. **Procedures.** Specify the State's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

During the enrollment process, a required ISIS milestone of affirmation confirms that the choice between HCBS and institutional services has been offered to the member. This milestone is to be completed by the DHS Income Maintenance worker. If the choice is HCBS services, the member and/or representative will complete Part A Verification of HCBS Consumer Choice, on the Home and Community Based Services Assessment or Reassessment form.

- b. **Maintenance of Forms.** Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

Choice forms are maintained at the local Department of Human Services Income Maintenance Worker offices and at the IME.

### B-8: Access to Services by Limited English Proficiency Persons

**Access to Services by Limited English Proficient Persons.** Specify the methods that the State uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

Iowa Department of Human Services adopts the policy as set forth in Title VI of the Civil Rights Act prohibiting national origin discrimination as it affects people with limited English proficiency. The Department shall provide for communication with people with limited English proficiency, including current and prospective patients or clients, family members and members to ensure them an equal opportunity to benefit from services. The Department has developed policies and procedures to ensure meaningful access for people with limited English proficiency. This includes procedures to:

- Identify the points of contact where language assistance is needed.
  - Identify translation and interpretation resources, including their location and their availability
  - Arrange to have these resources available in timely manner.
  - Determine the written materials and vital documents to be translated, based on the populations with limited English proficiency and ensure their transition.
  - Determining effective means for notifying people with limited English proficiency of available translation services available at no cost.
  - Training department staff on limited English proficiency requirements and ensure their ability to carry them out, and
  - Monitoring the application of these policies on at least an annual basis to ensure ongoing meaningful access to services.
- All applications and informational handouts are printed in Spanish. In addition, the contract with IME Member Services requires that a bilingual staff person be available to answer all telephone calls, emails and written inquires. They also work

with interrupters if another spoken language is needed. All local Department of Human Services offices have access to a translator if a bilingual staff person is not available. The Department includes this policy as part of their Policy on Nondiscrimination that can be found the Iowa Department of Human Services Title 1 General Departmental Procedures in the Department Employee Manual.
