

ACTIONS:
Engage Leadership & Receive Leadership Commitment
Support the initial stages of C3 community engagement with meeting facilitation and charter development.
Promote the SIM among potential partners and non-C3 Iowa communities, highlighting the benefits of value-added health care strategies in a changing landscape.
Develop & Implement Quality Improvement Strategies
Influence C3 communities to align activities with complimentary programs (e.g., HEN, TCPI, State Public Health Strategies)
Identify improvement activities that drive C3 initiatives to align with SIM goals and Statewide PH Strategies.
Convene learning communities and produce topical webinars, each focusing on key topics and strategies (e.g., Care Coordination Strategies, Data-Driven Improvement, Health Equity)
Assist C3s in aligning CHNA & HIP efforts of hospital and public health communities.
Guide alignment of local community strategies with Iowa statewide strategies to capitalize on the momentum of existing activities.
Integrate HRA content into Patient and Family Engagement strategies.
Align data collection and reporting strategies to reduce data collection burden
Establish a project reporting database to support C3 performance tracking
